Interest:

Interest on the Senior Class A1 Notes and the Subordinated Class D Notes is payable by reference to successive interest periods (each a '**Floating Rate Interest Period**') and will be payable quarterly in arrear in euros in respect of the Principal Amount Outstanding (as defined in the Conditions) on the 19th day of August, November, February and May (or, if such day is not a Business Day, the next succeeding Business Day) in each year (each such day being a '**Quarterly Payment Date**'). Each successive Floating Rate Interest Period will commence on (and include) a Quarterly Payment Date and end on (but exclude) the next succeeding Quarterly Payment Date, except for the first Floating Rate Interest Period which will commence on (and include) the Closing Date and end on (but exclude) the Quarterly Payment Date falling in August 2003. The interest calculated on the basis of the actual days elapsed in a Floating Rate Interest Period divided by a year of 360 days.

A '**Business Day**' means a day on which banks are open for business in Amsterdam, provided that such day is also a day on which the Trans-European Automated Real-Time Gross Settlement Express Transfer System ('**TARGET System**') or any successor thereto is operating credit or transfer instructions in respect of payments in euro.

Interest on the Senior Class A1 Notes and the Subordinated Class D Notes for each Floating Rate Interest Period from the Closing Date will accrue at a rate equal to the sum of the Euro Interbank Offered Rate ('**Euribor**') for three months deposits in euros (determined in accordance with condition 4(f)) (or, in respect of the first Floating Rate Interest Period, the rate which represents the linear interpolation of Euribor for 3 and 4 months deposits in euro, rounded, if necessary, to the 5th decimal place with 0.00005, being rounded upwards) plus a margin which until the first Optional Redemption Date, will for the Senior Class A1 Notes be equal to 0.25 per cent. per annum and for the Subordinated Class D Notes be equal to 1.15 per cent. per annum.

Up to the first Optional Redemption Date, interest on the Senior Class A2 Notes, the Mezzanine Class B Notes and the Junior Class C Notes is payable by reference to successive interest periods (each a '**Fixed Rate Interest Period**') and will be payable per annum in euros in respect of the Principal Amount Outstanding (as defined in the Conditions) on the 19th day of May (or, if such day is not a Business Day, the next succeeding Business Day) in each year (each such day being an '**Annual Payment Date**'). Each successive Fixed Rate Interest Period will commence on (and include) an Annual Payment Date and end on (but exclude) the next succeeding Annual Payment Date, except for the first Fixed Rate Interest Period, which will commence on (and include) the Closing Date and end on (but exclude) the

Annual Payment Date falling in May 2004. The interest will be calculated on the basis of the actual number of days in the Fixed Rate Interest Period concerned divided by a year of 365 days or, in the case of a Fixed Rate Interest Period falling in a leap year, 366 days.

Up to the first Optional Redemption Date, the Senior Class A2 Notes, the Mezzanine Class B Notes and the Junior Class C Notes will carry the following fixed rates of interest per annum:

- (i) the Senior Class A2 Notes 4.30;
- (ii) the Mezzanine Class B Notes 4.67; and
- (iii) the Junior Class C Notes 5.22.

Interest Switch/step up:

If on the first Optional Redemption Date the Notes of any Class have not been redeemed in full, the interest on the Senior Class A2 Notes, the Mezzanine Class B Notes, the Junior Class C Notes will switch to floating rates of interest and the interest applicable to the relevant Class of Notes will be equal to Euribor for three month deposits in euros, payable by reference to Floating Rate Interest Periods (as defined above) on each Quarterly Payment Date (as defined below) plus:

- (i) for the Senior Class A1 Notes, a margin of 1.00 per cent. per annum;
- (ii) for the Senior Class A2 Notes, a margin of 1.00 per cent. per annum;
- (iii) for the Mezzanine Class B Notes, a margin of 1.50 per cent. per annum;
- (iv) for the Junior Class C Notes, a margin of 3.00 per cent. per annum; and
- (v) for the Subordinated Class D Notes, a margin of 5.00 per cent. per annum.

Average Life:

The estimated average life of the Notes from the Closing Date up to the first Optional Redemption Date based on a conditional prepayment rate of 8 per cent. will be as follows:

- (i) the Senior Class A1 Notes 4,4 years;
- (ii) the Senior Class A2 Notes 8 years;
- (iii) the Mezzanine Class B Notes 8 years;
- (iv) the Junior Class C Notes 8 years; and
- (v) the Subordinated Class D Notes 8 months.

The expected amortisation profile of the Senior Class A1 Notes and the Subordinated Class D Notes is set out in the Annex hereto.

The average life of the Notes given above should be viewed with caution; reference is made to the paragraph *Risks inherent to the Notes*.

Final Maturity Date:

Unless previously redeemed as provided below, the Issuer will redeem the Notes at their respective Principal Amount Outstanding on the Quarterly Payment Date falling in May 2055 (the '**Final Maturity Date**').

Payment of Principal to Noteholders:

The Issuer will be obliged to use all amounts received as principal on the Mortgage Receivables – subject to the Conditions – to (partially) redeem the Notes. The amounts available for the Noteholders will initially be passed through on a quarterly basis to the holders of the Senior Class A1 Notes until fully redeemed and from the later of (i) the date of redemption in full of the Senior Class A1 Notes and (ii) the first Optional Redemption Date to the respective Noteholders in the following order (a) firstly, the Senior Class A2 Notes until fully

redeemed, (b) secondly, the Mezzanine Class B Notes until fully redeemed and (c) finally, the Junior Class C Notes until fully redeemed.

If the Senior Class A1 Notes are redeemed in full prior to the first Optional Redemption Date, the Notes Redemption Available Amount will not be used for redemption of the Senior Class A2 Notes, the Mezzanine Class B Notes and the Junior Class C Notes until the first Optional Redemption Date. Instead, the Notes Redemption Available Amount will be deposited on the Issuer Collection Account or, at the option of the Issuer, be invested in (a) Euro nominated securities with a maturity not beyond the first Optional Redemption Date provided that such securities have been assigned either (i) a rating of Aaa by Moody's in case of a remaining tenor longer than 6 months or (ii) a rating of Prime-1 by Moody's in case of a remaining tenor of lesser than 90 days or (b) other securities provided that Moody's has given prior confirmation that such investment will not adversely affect the then current ratings assigned to the Notes.

The Subordinated Class D Notes will be (partially) redeemed on each Quarterly Payment Date (the first of which will fall on 19 August 2003). The amount available for redemption will be the remaining amount, if any, of the Notes Interest Available Amount after payment of item (a) up to and including (n) of the Interest Priority of Payments. In addition thereto, on the Optional Redemption Date on which the Notes (other than Subordinated Class D Notes) will be redeemed in full or on the Final Maturity Date, as the case may be, the balance standing to the credit of the Reserve Account and any amount standing to the credit of the Issuer Collection Account (if any) after all amounts of interest and principal due in respect of the Notes, except for principal on the Subordinated Class D Notes, have been paid will be available for redemption of the Subordinated Class D Notes.

Optional Redemption of the Notes:

On the Quarterly Payment Date falling in May 2011 and on each Quarterly Payment Date thereafter (each an '**Optional Redemption Date**'), the Issuer will have the option to redeem all of the Notes, but not some only, at their Principal Amount Outstanding (as defined in the Conditions) or, in case of a Junior Class C Principal Shortfall (as defined in Condition 6(e)) or a Mezzanine Class B Principal Shortfall (as defined in Condition 6(e)), partially redeem the Junior Class C Notes or, as the case may be, the Mezzanine Class B Notes at their Principal Amount Outstanding less the Junior Class C Principal Shortfall or, as the case may be, the Mezzanine Class B Principal Shortfall as provided in Condition 6(e), on such date.

Redemption for tax reasons:

In the event of certain tax changes affecting any Class of Notes, including in the event that the Issuer is or will be obliged to make any withholding or deduction from payments in respect of the Notes (although the Issuer will not have any obligation to pay additional amounts in respect of any such withholding or deduction), the Issuer may (but is not obliged to) redeem all (but not some only) of the Notes at their Principal Amount Outstanding together with accrued interest thereon up to and including the date of redemption, subject to and in accordance with the Conditions. No Class of Notes may be redeemed under such circumstances unless the other Classes of Notes (or such of them as are then outstanding) are also redeemed in full at the same time.

Withholding Tax:

All payments by the Issuer in respect of the Notes or Coupons can be made without withholdings or deductions for or because of any taxes, duties or charges of any nature whatsoever that are or may be withheld or assessed by the Dutch tax authorities or any political

subdivision thereof or therein. If, in the future, the withholding or deduction of such taxes, duties or charges should be required by law, the Issuer will withhold or deduct such taxes, duties or charges for the account of the Noteholders or Couponholders and shall not pay any additional amounts to the Noteholders or Couponholders in respect of the aforementioned withholdings or deductions. In particular, but without limitation, no additional amounts shall be payable in respect of any Note or Coupon presented for payment to an individual and is required to be made pursuant to any European Union Directive on the taxation of savings implementing the conclusions of the revised proposal of the ECOFIN Council dated 13 December 2001.

Method of Payment:

For so long as the Notes are represented by a Global Note, payments of principal and interest will be made in euro to a Common Depository for Euroclear and Clearstream, Luxembourg, for the credit of the respective accounts of the Noteholders.

Use of proceeds:

The Issuer will use the net proceeds from the issue of the Senior Class A1 Notes, the Senior Class A2 Notes, the Mezzanine Class B Notes and the Junior Class C Notes to pay to the Sellers (part of) the Initial Purchase Price for the Mortgage Receivables (as described below), pursuant to the provisions of an agreement dated 8 May 2003 (the '**Mortgage Receivables Purchase Agreement**') and made between the Sellers, the Issuer and the Security Trustee. See further *Mortgage Receivables Purchase Agreement* below. The Issuer will use the net proceeds from the issue of the Subordinated Class D Notes to fund the Reserve Account. See further *Credit Structure* below.

MORTGAGE RECEIVABLES:

Mortgage Receivables:

Under the Mortgage Receivables Purchase Agreement, the Issuer will purchase and on the Closing Date accept the assignment of any and all rights (the '**Mortgage Receivables**') of (a) Delta Lloyd Life or (b) Triahome severally or (c) Delta Lloyd Bank and Delta Lloyd Life jointly, against certain borrowers (the '**Borrowers**') under or in connection with certain selected Mortgage Loans (as defined below). The Issuer will be entitled to the proceeds of the Mortgage Receivables as of 1st May 2003. The Mortgage Receivables relating to Savings Mortgage Loans and Life Mortgage Loans (all as defined below), will hereinafter be referred to as the '**Savings Mortgage Receivables**' and the '**Life Mortgage Receivables**', respectively.

Substitution:

The Mortgage Receivables Purchase Agreement will provide that the Issuer shall, up to and including the Quarterly Payment Date immediately preceding the first Optional Redemption Date, on a quarterly basis apply any proceeds of the repurchase of Mortgage Receivables in connection with the granting of a Further Advance or a Further Construction Loan, both as defined below by the relevant Seller or, as the case may be, relevant Sellers to purchase from the relevant Seller or, as the case may be, relevant Sellers mortgage receivables (the '**Substitute Mortgage Receivables**'), subject to the fulfilment of certain conditions. The Substitute Mortgage Receivables may be or have been originated by either the relevant Seller(s) or by Amstelhuys N.V., a 100% subsidiary of Delta Lloyd N.V. In case the proceeds of any such repurchase of Mortgage Receivables are not applied towards the purchase of Substitute Mortgage Receivables, such proceeds will be available for redemption of the Notes. See *Mortgage Receivables Purchase Agreement* below.

Repurchase of Mortgage Receivables:

In the Mortgage Receivables Purchase Agreement the relevant Seller or, as the case may be, the relevant Sellers have undertaken to repurchase and accept re-assignment of a Mortgage Receivable:

- (i) in case any of the representations and warranties given by the relevant Seller or, as the case may be, relevant the Sellers in respect of the Mortgage Loans and the Mortgage Receivables, including the representation and warranty that the Mortgage Loans or, as the case may be, the Mortgage Receivables meets certain mortgage loan criteria, are untrue or incorrect;
- (ii) if the relevant Seller or, as the case may be, relevant Sellers agree with a Borrower to grant a Further Advance under a Mortgage Loan, whether or not under the Mortgage Loan, which is only secured by the mortgage rights which also secures the Mortgage Receivable (the '**Further Advance**'); and
- (iii) if the relevant Seller or, as the case may be, the relevant Sellers agree with a Borrower to either (a) amend the terms of the Mortgage Loan and as a result thereof such Mortgage Loan no longer meets certain criteria set forth in the Mortgage Receivables Purchase Agreement and (b) grant a further loan with a construction amount, whether or not only secured by the same Mortgage as the Mortgage Receivable of such Borrower (the "**Further Construction Loan**".)

Mortgage Loans:

The Mortgage Receivables to be sold by the Sellers pursuant to the Mortgage Receivables Purchase Agreement will result from loans secured by a first-ranking mortgage right or first and sequentially lower ranking mortgage rights, over, (i) a real property ("*onroerende zaak*"), (ii) an apartment right ("*appartementsrecht*") or (iii) a long lease ("*erfpacht*"), together with real property and apartment rights (the '**Mortgaged Assets**') situated in the Netherlands and entered into by Delta Lloyd Life or Triahome or, in case of a portion of the Savings Mortgage Loans, by Delta Lloyd Life and Delta Lloyd Bank jointly, with the relevant Borrowers which meet the criteria set forth in the Mortgage Receivables Purchase Agreement and which will be selected prior to or on the Closing Date (the '**Mortgage Loans**'). The Mortgage Loans will consist of savings mortgages ("*spaarhypotheken*"), linear mortgages ("*lineaire hypotheken*"), annuity mortgages ("*annuïteiten hypotheken*"), interest only mortgages ("*aflossingsvrije hypotheken*"), universal life mortgages ("*Delta Life hypotheken*" and "*Financieel Vrijheidsplan*"), unit-linked mortgages ("*Meerkeuzeplan*") and traditional life insurance mortgages ("*traditionele levenshypotheken*"). See further Description of the Mortgage Loans below.

Municipality Guarantees/NHG Guarantees:

Part of the Mortgage Loans will have the benefit of guarantees from municipalities ('**Municipality Guarantees**') or under the "*Nationale Hypotheek Garantie*" ('**NHG Guarantees**'). See further *Municipality/ NHG Guarantee Programme* below.

Savings Mortgage Loans:

A portion of the Mortgage Loans will be in the form of savings mortgage loans, which consist of savings mortgages ("*spaarhypotheken*", hereinafter '**Savings Mortgage Loans**') entered into by Delta Lloyd Life, or, in case of a portion of the Savings Mortgage Loans, by Delta Lloyd Life and Delta Lloyd Bank together, with the relevant Borrowers combined with an insurance policy (a '**Savings Insurance Policy**') with the Insurance Company, being Delta Lloyd Life. A Savings Insurance Policy is a combined risk and capital insurance policy taken out by the relevant Borrower with the Insurance Company in connection with the relevant Savings Mortgage Loan. In relation to the Savings Insurance Policies the savings part of the premium (the '**Savings Premium**') is calculated in such a manner that, on an annuity basis, the proceeds of the Savings Insurance Policy due by the Insurance Company to the relevant Borrower is equal to the amount due by the Borrower to Delta Lloyd

Life or, as the case may be, Delta Lloyd Life and Delta Lloyd Bank together, at maturity of the Savings Mortgage Loan. See further *Special Considerations* below.

Sub-Participation Agreement:

On the Closing Date, the Issuer will enter into a sub-participation agreement (the '**Sub-Participation Agreement**') with the Insurance Company under which the Insurance Company will acquire participations in the relevant Savings Mortgage Receivables. In the Sub-Participation Agreement the Insurance Company will undertake to pay to the Issuer all amounts received as Savings Premia on the Savings Insurance Policies. In return, the Insurance Company is entitled to receive the Participation Redemption Available Amount (as defined in *Sub-Participation Agreement* below) from the Issuer. The amount of the participation (the '**Participation**') with respect to a Savings Mortgage Receivable consists of the initial participation at the Closing Date or, in case of substitution, the relevant Quarterly Payment Date (which is equal to the sum of all amounts received up to but excluding 19 May 2003 in the case of the Closing Date, being the amount of euro 3,999,646.44, or the first day of the month in which the relevant Quarterly Payment Date falls in case of substitution by the Insurance Company as Savings Premia and accrued interest) increased on a monthly basis with the sum of (i) the Savings Premia received by the Insurance Company and paid to the Issuer and (ii) a *pro rata* part, corresponding to the Participation in the relevant Savings Mortgage Receivable, of the interest paid by the Borrower in respect of such Savings Mortgage Receivable. See further *Sub-Participation Agreement* below.

Life Mortgage Loans:

A portion of the Mortgage Loans, not being Savings Mortgage Loans, ('**Life Mortgage Loans**'), will have the benefit of combined risk and capital insurance policies ('**Life Insurance Policies**') taken out by Borrowers with the Insurance Company or any other life insurance company ('**Life Insurance Company**'). The Life Mortgage Loans are in the form of universal life mortgages ("*Delta Life hypotheek*" and "*Financieel Vrijheidsplan*") or unit linked mortgages ("*Meerkeuzeplan*") or traditional life insurance mortgages ("*traditionele levenshypotheek*"). See further *Description of the Mortgage Loans* below.

Construction Amounts:

Pursuant to the Mortgage Conditions, the Borrowers have the right to request that a part of the Mortgage Loan will be withheld and will be applied towards construction of or improvements to the mortgaged property. Such amounts including any interest accrued thereon ('**Construction Amount**') will only be paid to the Borrower in case certain conditions are met. The aggregate amount of the Construction Amounts as of 1 May 2003 is euro 15,882,872.98. The Issuer and the Seller will agree in the Mortgage Receivables Purchase Agreement that the Issuer will be entitled to withhold from the Initial Purchase Price an amount equal to the aggregate Construction Amounts as of 1 May 2003. Such amount will be deposited in the Construction Account. On each Quarterly Payment Date the Issuer will release from the Construction Account such part of the Initial Purchase Price which equals the amount by which the Construction Amounts have been reduced during the preceding Quarterly Calculation Period and pay such amount to the Seller.

Pursuant to the Mortgage Conditions, Construction Amounts have to be paid out within 12 months. After such period, any remaining Construction Amounts will be set-off against the relevant Mortgage Receivable up to the amount of the Construction Amount. The Issuer shall have no further obligation towards the Seller to pay the remaining part of the Initial Purchase Price in such case and any

balance standing to the credit of the Construction Account will be used for redemption of the Notes in accordance with the Conditions of the Notes.

Security for the Notes:

The Notes will be secured (a) directly, by a deed of surety to be entered into on the Closing Date between the Security Trustee and certain Secured Parties (as defined in *Description of Security* below) pursuant to which the Security Trustee will agree to grant a surety (“*borgtocht*”) to the Secured Parties, which include the Noteholders, on a limited recourse basis (the ‘**Deed of Surety**’); (b) indirectly, through the Security Trustee, by a first ranking pledge by the relevant Sellers to the Security Trustee and a second ranking pledge by the relevant Sellers to the Issuer over the Mortgage Receivables and the Beneficiary Rights (as defined below); and (c) indirectly, through the Security Trustee, by a first ranking pledge by the Issuer to the Security Trustee over the Issuer’s rights under or in connection with the Mortgage Receivables Purchase Agreement, the Swap Agreement, the Sub-Participation Agreement, the Issuer Services Agreement, the Liquidity Facility Agreement and the Floating Rate GIC and in respect of the Transaction Accounts (each as referred to below). The amount payable to the Noteholders and the other Secured Parties will be limited to the amounts available for such purpose to the Security Trustee which, *inter alia*, will consist of amounts recovered by the Security Trustee on the Mortgage Receivables and the Beneficiary Rights and amounts received by the Security Trustee as creditor under the Mortgage Receivables Purchase Agreement and the Trust Deed. Payments to the Secured Parties will be made in accordance with the Priority of Payments upon Enforcement (as defined in *Credit Structure* below). See further *Special Considerations* below and for a more detailed description see *Description of Security* below.

Sale of the Mortgage Receivables:

The Issuer will on any Optional Redemption Date have the right to sell and assign the Mortgage Receivables to a third party, which may also be any of the Sellers, provided that the Issuer shall apply the proceeds of such sale, to the extent relating to principal, to redeem the Notes, other than the Subordinated Class D Notes. The purchase price of the Mortgage Receivables shall be equal to the outstanding Principal amount, together with accrued interest due but unpaid, if any, of each Mortgage Receivable, except that with respect to Mortgage Receivables which are in arrears for a period exceeding 90 days or in respect of which an instruction has been given to the civil-law notary to start foreclosure proceedings, the purchase price shall be at least the lesser of (i) an amount equal to the foreclosure value of the Mortgaged Assets or, if no valuation report of less than 12 months old is available, the indexed foreclosure value, or (ii) the sum of the outstanding principal amount together with accrued interest due but not paid, if any, and any other amount due under the Mortgage Receivable.

CASH-FLOW STRUCTURE:

Liquidity Facility:

On the Closing Date, the Issuer will enter into a 364 term liquidity facility agreement with the Liquidity Facility Provider (the ‘**Liquidity Facility Agreement**’) whereunder the Issuer will be entitled to make drawings in order to meet certain shortfalls in its available revenue receipts. See further *Credit Structure* below.

Seller Collection Account:

The Sellers maintain an account (the ‘**Seller Collection Account**’) to which collections of all amounts of interest, prepayment penalties and principal received under the Mortgage Receivables will be paid. The Seller Collection Account is administered by STATER Nederland B.V.

| | |
|-----------------------------------|--|
| Issuer Collection Account: | The Issuer shall maintain with the Floating Rate GIC Provider an account (the ' Issuer Collection Account ') to which on a monthly basis all amounts from the Seller Collection Account will be transferred by the Sellers or by STATER Nederland B.V. on their behalf. |
| Construction Account: | The Issuer will maintain with the Floating Rate GIC Provider an account (the ' Construction Account ') to which on the Closing Date an amount corresponding to the aggregate Construction Amounts will be credited. The Construction Account will be debited for (i) payments to Delta Lloyd Life for the benefit of the relevant Seller(s) upon Construction Amounts being paid out by Delta Lloyd Life for the benefit of the relevant Seller(s) to or on behalf of the Borrowers; and (ii) for transfer to the Issuer Collection Account in case the Issuer has no obligation to pay any further part of the Initial Purchase Price (as described in <i>Construction Amounts</i> above). |
| Reserve Account: | The Issuer will pay the proceeds of the Subordinated Class D Notes into an account (the ' Reserve Account ', together with the Issuer Collection Account and the Construction Account, the ' Transaction Accounts ') held with the Floating Rate GIC Provider. The purpose of the Reserve Account will be to enable the Issuer to meet the Issuer's payment obligations under items (a) up to and including (n) in the Interest Priority of Payments (as defined in <i>Credit Structure</i> below) in the event that the Notes Interest Available Amount (as defined in <i>Credit Structure</i> below) is not sufficient to meet such payment obligations on a Quarterly Payment Date. If and to the extent that the Notes Interest Available Amount on any Quarterly Calculation Date exceeds the amounts ranking higher in the Interest Priority of Payments, such excess amount will be used to deposit on or, as the case may be, to replenish the Reserve Account by crediting such amount to the Reserve Account up to the Reserve Account Required Amount. The ' Reserve Account Required Amount ' shall on any Quarterly Calculation Date be equal to (i) 0.5 per cent. of the aggregate Principal Amount Outstanding of the Notes, other than the Subordinated Class D Notes, on the Closing Date or (ii) 1.35 per cent. of the aggregate Principal Amount Outstanding of the Notes, other than the Subordinated Class D Notes, on the Closing Date in case (a) the aggregate outstanding principal amount of all Mortgage Receivables in arrears for more than 60 days exceeds 1.0 per cent. of the aggregate outstanding principal amount of all Mortgage Receivables; or (b) if on the first Optional Redemption Date the Notes, other than the Subordinated Class D Notes have not been redeemed in full or (iii) zero on the Optional Redemption Date whereon the Notes, other than the subordinated Class D Notes, have been or are to be redeemed in full, subject to the Conditions. |
| Floating Rate GIC: | The Issuer and the Floating Rate GIC Provider will enter into a guaranteed investment contract (the ' Floating Rate GIC ') on the Closing Date, whereunder the Floating Rate GIC Provider will agree to pay a guaranteed rate of interest determined by reference to one month Euribor minus a margin on the balance standing from time to time to the credit of the Transaction Accounts. |
| Swap Agreement: | On the Closing Date, the Issuer will enter into a swap agreement with the Swap Counterparty to hedge the risk between the rates of interest to be received by the Issuer on the Mortgage Receivables and the floating rates of interest or, as the case may be, the fixed rates of interest payable by the Issuer on the relevant Class of Notes (as defined in <i>Credit Structure</i> under <i>Interest Rate Hedging</i> below). |

SPECIAL CONSIDERATIONS

The following is a summary of certain aspects of the issue of the Notes of which prospective Noteholders should be aware. It is not intended to be exhaustive, and prospective Noteholders should read the detailed information set out elsewhere in this document.

Liabilities under the Notes

The Notes will be solely the obligations of the Issuer. The Notes will not be obligations or responsibilities of, or guaranteed by, any other entity or person, in whatever capacity acting, including, without limitation, the Sellers, the Insurance Company, the Managers, the Liquidity Facility Provider, the MPT Provider, the Defaulted Loan Servicer, the Company Administrator, the Floating Rate GIC Provider, the Swap Counterparty, the Directors, the Paying Agent, the Reference Agent or, except for certain limited obligations under the Deed of Surety and the Trust Deed as more fully described in *Description of Security*, the Security Trustee. Furthermore, none of the Sellers, the Insurance Company, the Managers, the Liquidity Facility Provider, the MPT Provider, the Defaulted Loan Servicer, the Company Administrator, the Floating Rate GIC Provider, the Swap Counterparty, the Directors, the Paying Agent, the Reference Agent or any other person in whatever capacity acting, other than the Security Trustee in respect of limited obligations under the Deed of Surety and the Trust Deed, will accept any liability whatsoever to Noteholders in respect of any failure by the Issuer to pay any amounts due under the Notes.

The ability of the Issuer to meet its obligations in full to pay principal of and interest on the Notes will be dependent on the receipt by it of funds under the Mortgage Receivables, the proceeds of the sale of any Mortgage Receivables, the receipt by it of payments under the Swap Agreement and the receipt by it of interest in respect of the balances standing to the credit of the Transaction Accounts (other than the Construction Account). See further *Credit Structure*. In addition, the Issuer will have available to it the balances standing to the credit of the Transaction Accounts and the amount available to be drawn under the Liquidity Facility for certain of its payment obligations.

By acquiring the Notes, the Noteholders shall be deemed to have knowledge of accept and be bound by the Conditions. The Issuer and the Paying Agent will not have any responsibility for the proper performance by Euroclear and/or Clearstream, Luxembourg or its participants of their obligations under their respective rules, operating procedures and calculation methods.

Deed of Surety

The Notes will be secured, *inter alia*, by the Deed of Surety. Under the terms of the Deed of Surety, the Security Trustee will undertake to pay to the Secured Parties (including the Noteholders), subject to the Priority of Payments upon Enforcement (as described in *Credit Structure* below), all amounts due and payable by the Issuer to the Secured Parties, including amounts due under or in connection with the Notes, if the Issuer does not perform its obligations vis-à-vis the Secured Parties, whether fully or partially. However, the payment obligations to the Secured Parties will be limited, broadly, to amounts received by the Security Trustee as creditor under the Mortgage Receivables Purchase Agreement and amounts recovered under any of the pledge agreements to which the Security Trustee is a party (as more fully described in *Description of Security* below). Given the limited recourse provisions to be contained in the Deed of Surety, it should not be regarded as credit enhancement for the Notes in economic terms. The Deed of Surety will be entered into for purely technical reasons and will be used to create a recourse claim of the Security Trustee against the Issuer, so that as a matter of Netherlands law the Mortgage Receivables can be effectively pledged to the Security Trustee by the Sellers. In this respect it is noted that, in order to create such recourse claim, the Security Trustee should first pay the relevant amount to the Secured Parties. The Security Trustee will have to borrow such funds. In order to further secure the valid creation of the pledges in favour of the Security Trustee, the Issuer has as a separate and independent obligation, by way of parallel debt, undertaken to pay the Security Trustee amounts equal to the amounts due by it to the Secured Parties. The Issuer has been advised that there are good reasons to conclude that such a parallel debt creates a claim of the Security Trustee thereunder which can be validly secured by a right of pledge such as the rights of pledge created by the Trustee Pledge Agreement I and the Trustee Pledge Agreement II.

Transfer of Legal Title to Mortgage Receivables

The Mortgage Receivables Purchase Agreement will provide that the assignment of the Mortgage Receivables by the Sellers to the Issuer will not be notified by the Sellers to the Borrowers except if certain events occur. For a description of these notification events reference is made to *Mortgage Receivables*

Purchase Agreement below. Under Netherlands law the assignment of a receivable is only perfected if the assignment has been notified to the borrower. Consequently, prior to such notification, legal title to the Mortgage Receivables will remain with the relevant Seller or, as the case may be, relevant Sellers. Notification of the assignment to a Borrower after any of the Sellers has been declared bankrupt or after having been granted a suspension of payments, in respect of Triahome, or has become subject to emergency regulations, in respect of Delta Lloyd Life or Delta Lloyd Bank, will not be effective and, consequently, in such event the legal ownership to the Mortgage Receivables will not pass to the Issuer.

In order to protect the Issuer in the situation that notification of the assignment of the Mortgage Receivables can no longer be effectively made due to bankruptcy or suspension of payments or, as the case may be, emergency regulations involving any of the Sellers, each of the Sellers will grant a first-ranking “silent” right of pledge (i.e. without notification being required) under Netherlands law to the Security Trustee and a second-ranking “silent” right of pledge to the Issuer over the Mortgage Receivables and the rights of any of the Sellers as beneficiary under any Life Insurance Policy with a Life Insurance Company (the ‘**Life Beneficiary Rights**’) and a disclosed right of pledge over the rights of Triahome as beneficiary under any Insurance Policy with Delta Lloyd Life (the ‘**Triahome Beneficiary Rights**’, and together with the Life Beneficiary Rights, the ‘**Beneficiary Rights**’) and the Issuer will grant a first-ranking “disclosed” right of pledge to the Security Trustee on the rights deriving from, *inter alia*, the Mortgage Receivables Purchase Agreement, as more fully described in *Description of Security* below. Notification of the “silent” rights of pledge in favour of the Security Trustee and the Issuer can be validly made after bankruptcy or suspension of payments or, as the case may be, emergency regulations have been declared in respect of the relevant Seller. Under Netherlands law the Issuer and the Security Trustee can, in the event of bankruptcy or suspension of payments or, as the case may be, emergency regulations in respect of any of the Sellers, exercise the rights afforded by law to pledgees as if there were no bankruptcy or suspension of payments, or, as the case may be, emergency regulations. However, bankruptcy or suspension of payments or, as the case may be, emergency regulations involving any of the Sellers would affect the position of the Security Trustee and the Issuer as pledgees in some respects, the most important of which are: (i) payments made by Borrowers prior to notification but after bankruptcy or suspension of payments, or, as the case may be, emergency regulations in respect of any of the Sellers having been declared will be part of the bankrupt estate, although the relevant pledgee has the right to receive such amounts by preference after deduction of certain costs, (ii) a mandatory “cool-off” period of up to two months may apply in case of bankruptcy or suspension of payments or, as the case may be, emergency regulations involving any of the Sellers (other than Delta Lloyd Life), which, if applicable, would delay the exercise of the right of pledge on the Mortgage Receivables and (iii) the relevant pledgee may be obliged to enforce its right of pledge within a reasonable period as determined by the judge-commissioner (“*rechter-commissaris*”) appointed by the court in case of bankruptcy of such Seller.

Set-off

Under Netherlands law each Borrower will, subject to the legal requirements for set-off being met, be entitled to set off amounts due by any of the Sellers to it (if any) with amounts it owes in respect of the Mortgage Receivables. After assignment and/or pledge of the Mortgage Receivables to the Issuer and notification thereof to a Borrower, the Borrower will also have set-off rights *vis-à-vis* the Issuer, provided that the legal requirements for set-off are met, and further provided that (i) the counterclaim of the Borrower results from the same legal relationship as the relevant Mortgage Receivable, or (ii) the counterclaim of the Borrower has been originated and become due prior to the assignment and/or pledge of the Mortgage Receivables and notification thereof to the relevant Borrower.

The conditions applicable to the Mortgage Loans provide that payments by the Borrowers should be made without set-off. Although this clause is intended as a waiver by the Borrowers of their set-off rights *vis-à-vis* the Sellers, under Netherlands law it is uncertain whether such waiver will be valid. Should such waiver be invalid, the foregoing applies *mutatis mutandis*.

The Mortgage Receivables Purchase Agreement provides that if a Borrower sets off amounts due to it by any of the Sellers against the relevant Mortgage Receivable and, as a consequence thereof, the Issuer does not receive the amount which it is entitled to receive in respect of such Mortgage Receivable, the relevant Seller will pay to the Issuer an amount equal to the difference between the amount which the Issuer would have received in respect of the relevant Mortgage Receivable if no set-off had taken place and the amount actually received by the Issuer in respect of such Mortgage Receivable.

For specific set-off issues relating to Savings Mortgage Loans and Life Mortgage Loans reference is made to the paragraph *Insurance Policies* below.

The Sellers will also have the right to set-off any amounts owing to a Borrower against a Mortgage Receivable in respect of such Borrower. The Mortgage Receivables Purchase Agreement will provide that, prior to notification of the assignment and/or pledges, the relevant Seller will pay to the Issuer any amounts not received by the Issuer as a result of such right of set-off being invoked by any Seller. After notification of the assignment and/or pledges to the Borrowers, the Sellers will no longer have any set-off rights against the relevant Borrowers.

Mortgage Rights

All Mortgage Receivables sold to the Issuer resulting from Mortgage Loans which were originated by the relevant Seller or, as the case may be, the relevant Sellers after 1 January 1992 but prior to 1 March 1999 will be secured by mortgage rights which secure the initial Mortgage Loan and all other amounts which the Borrower may be or become due to the relevant Seller or, as the case may be, the relevant Sellers up to the amount of his repayments or prepayments on the initial Mortgage Loan. All Mortgage Receivables sold to the Issuer resulting from Mortgage Loans which were originated following 1 March 1999 will be secured by mortgage rights which secure not only the initial Mortgage Loan but also any amounts which the Borrower may be or become due to the relevant Seller or, as the case may be, relevant Sellers under further loans and/or credits up to a maximum level. It is likely that both types of Mortgage Receivables should be regarded as “*krediethypotheken*” (“**Credit Mortgages**”). Under Netherlands law it is uncertain whether, in the event of assignment or pledge of a receivable secured by a Credit Mortgage, the Credit Mortgage will follow such receivable.

Each of the Sellers will undertake in the Mortgage Receivables Purchase Agreement to partially terminate the relevant mortgage rights securing the relevant Mortgage Receivables to the extent that the mortgage right secures other debts than the relevant Mortgage Receivables by giving notice of such partial termination to the relevant Borrowers at the same time that the Borrowers will be notified of the assignment (see paragraph *Transfer of Legal Title to Mortgage Receivables* above). As a consequence of such partial termination the mortgage right would only secure the Mortgage Receivable assigned to the Issuer and would, in effect, cease to be a Credit Mortgage. Although there is no case law directly to support this view, the Issuer has been advised that there are no reasons why the mortgage right will not follow the Mortgage Receivable upon its assignment if the credit mortgage character is removed through partial termination prior to transfer of legal title to the Mortgage Receivables to the Issuer.

The relevant statutory provisions only address termination in general, and legal commentators, although accepting the right of partial termination, do not specifically discuss partial termination of mortgage rights in the manner described above. It is therefore unclear whether such a partial termination complies with the relevant statutory requirements. Based upon a reasonable interpretation of the statutory provisions and the views expressed by legal commentators, there are strong reasons for arguing that the Sellers can effectively terminate the mortgage rights as described above.

Under Netherlands law a mortgage right can be terminated by the mortgage holder provided that upon creation of the mortgage right the mortgage holder was granted such right by the mortgage deed. The general conditions applicable to the mortgage deeds relating to the Mortgage Loans specifically provide for a partial termination right.

Should any of the Sellers be declared bankrupt or, as the case may be, granted a suspension of payments or, as the case may be, become subject to emergency regulations, its undertaking to give a notice of partial termination is no longer enforceable and a notice of partial termination received after such date by a Borrower will not be effective. In such a situation the legal transfer of the relevant Mortgage Receivables can no longer be effected, although the Issuer and the Security Trustee will remain pledgees of such Mortgage Receivables (see paragraph *Transfer of Legal Title to Mortgage Receivables* above). However, the fact that notice can no longer be given means that it is uncertain, also depending on the specific facts and circumstances involved, whether the Issuer and the Security Trustee will have the benefit of a mortgage right securing such Mortgage Receivables and, if a Borrower fails to comply with its obligations under the Mortgage Loan, whether the Issuer or the Security Trustee (as the case may be) would be in a position to foreclose the mortgage right as pledgee of the Mortgage Receivables. If not, the assistance of the relevant Sellers' administrator (in case of emergency regulations or, as the case may be, in case of suspension of payments) or bankruptcy trustee (in case of bankruptcy) would be required to effect a foreclosure which would, in whole or in part, be for the benefit of the pledgees. It is uncertain whether such assistance will be forthcoming. A similar situation could arise if any of the Sellers becomes subject to emergency regulations or, as the case may be, is granted a suspension of payments or is declared bankrupt after notice of partial termination is given and the courts would come to the conclusion, notwithstanding the arguments against such an interpretation, that a Credit Mortgage cannot be converted by way of partial termination into a

mortgage right which only secures the Mortgage Receivables or, following such conversion, does not follow the Mortgage Receivables upon their pledge or assignment. Consequently, the Issuer would not have the benefit of the mortgage right securing such Mortgage Receivables and would have to rely on the assistance of the relevant Seller's administrator or bankruptcy trustee to foreclose the mortgage right.

Furthermore, it is noted that if the Issuer does not have the benefit of the mortgage right, it also will not be entitled to claim under any Municipality Guarantee or NHG Guarantee, if applicable.

Insurance Policies

The Life Mortgage Loans and the Savings Mortgage Loans have the benefit of Life Insurance Policies and Saving Insurance Policies respectively (together the '**Insurance Policies**'). The Savings Insurance Policies and a part of the Life Insurance Policies are entered into by the relevant Borrowers and the Insurance Company, being Delta Lloyd Life. The other part of the Life Insurance Policies are entered into by the relevant Borrowers and any of the Life Insurance Companies. In this paragraph, certain legal issues relating to the effects of the assignment of the Life Mortgage Loans and Savings Mortgage Loans on the Insurance Policies are set out. Investors should be aware that (i) the Issuer may not benefit from the Insurance Policies and/or (ii) the Issuer may not be able to recover any amounts from the Borrower in case Delta Lloyd Life or the relevant Life Insurance Company defaults in its obligations as further described in this paragraph. As a consequence thereof the Issuer may not have a claim on the Borrower and may, therefore, not have the benefit of the mortgage right. In such case the rights of the Security Trustee will be similarly affected. Due to the dependency on the performance by in particular Delta Lloyd Life of its obligations under the Insurance Policies, a deterioration of the credit quality of Delta Lloyd Life might have an adverse effect on the rating of one or more Classes of the Notes.

Pledge

All rights of a Borrower under the Insurance Policies have been pledged to the relevant Seller or, as the case may be, the relevant Sellers ('**Borrower Insurance Pledge**'). However, the Issuer has been advised that it is probable that the right to receive payment, including the commutation payment ("*afkoopsom*") under the Insurance Policies will be regarded by a Netherlands court as a future right. The pledge of a future right is under Netherlands law not effective if the pledgor is declared bankrupt or is granted a suspension of payments, prior to the moment such right comes into existence. This means that it is uncertain whether such pledge will be effective. Even if the pledge on the rights on the Insurance Policies would be effective, it is uncertain whether such right of pledge will pass to the Issuer or, as the case may be, the Security Trustee upon the assignment or pledge of the Mortgage Receivables, since the pledge secures the same liabilities as the Credit Mortgages. The observations on partial termination made in paragraph *Mortgage Rights* above apply equally to such right of pledge.

Appointment of Beneficiary

Furthermore, the relevant Seller has or, as the case may be, the relevant Sellers have been appointed or, as the case may be, have appointed themselves (if necessary, irrevocably authorised by the relevant Borrower) as beneficiary under the Insurance Policies up to the full amount owed by the Borrower. Contrary to the above mentioned appointment of the relevant Seller or, as the case may be, the relevant Sellers, any other appointment of a beneficiary by the Borrower will remain in force to the extent it relates to insurance proceeds which will become payable after the death of the insured but before the final date determined in the policy, provided that the Insurance Company or the relevant Life Insurance Company is authorised by such beneficiary to apply the insurance proceeds in satisfaction of the Mortgage Receivable. It is unlikely that the Beneficiary Rights will follow the Mortgage Receivables upon assignment or pledge thereof to the Issuer or the Security Trustee. The Issuer has been advised that it is unclear how the appointment of Delta Lloyd Life as beneficiary should be interpreted in view of the fact that the Seller is the same legal entity as the Insurance Company. Therefore, only the Triahome Beneficiary Rights and the Life Beneficiary Rights will be pledged to the Security Trustee and the Issuer (see *Mortgage Receivables Purchase Agreement* below), but it is uncertain whether this pledge will be effective. For the situation that no such authorisation exists and the pledge of the Triahome Beneficiary Rights and the Life Beneficiary Rights is not effective, the Issuer will enter into a beneficiary waiver agreement (the '**Beneficiary Waiver Agreement**') with the Sellers (Delta Lloyd Life also acting in its capacity as Insurance Company), under which the Sellers waive, subject to the condition precedent of the occurrence of a Notification Event (see *Description of Security* below) their respective rights as beneficiary under the Insurance Policies, except for Insurance Policies with any of the Life Insurance Companies and appoint (i) the Issuer subject to the dissolving condition ("*ontbindende voorwaarde*") of a Trustee I Notification Event relating to the Issuer and (ii) the Security Trustee under the condition precedent ("*opschortende voorwaarde*") of the occurrence of a Trustee I Notification Event (see

Description of Security below) relating to the Issuer in respect of such Insurance Policies. It is, however, uncertain whether such waiver and appointment will be effective. In view hereof and secondly in respect of the Insurance Policies with any of the Life Insurance Companies and finally for the event an authorisation as described above exists, the relevant Seller or, as the case may be, the relevant Sellers and the Insurance Company (other than in respect of Life Insurance Policies with any of the Life Insurance Companies) will in the Beneficiary Waiver Agreement undertake, following a Notification Event, to use their best efforts to change the payment instruction in favour of (i) the Issuer subject to the dissolving condition of a Trustee I Notification Event relating to the Issuer and (ii) the Security Trustee under the condition precedent of the occurrence of a Trustee I Notification Event relating to the Issuer. It is uncertain whether such co-operation will be forthcoming. If the Issuer or the Security Trustee, as the case may be, will not have been validly appointed as beneficiary under the Insurance Policies and the pledge of the Triahome Beneficiary Rights and the Life Beneficiary Rights is not effective, any proceeds under the Insurance Policies will be payable to the Sellers or to another beneficiary instead of to the Issuer, or the Security Trustee, as the case may be. If the proceeds are due to Delta Lloyd Life or, as the case may be, paid to Delta Lloyd Bank or Triahome and such Seller does not pay the amount involved to the Issuer or the Security Trustee, as the case may be (see paragraph *Insolvency of Delta Lloyd Life* below), or if the proceeds are paid to a beneficiary instead of to the Issuer or the Security Trustee, as the case may be, this may result in the amount paid under the Insurance Policies not being applied in reduction of the Mortgage Receivable. This may lead to the Borrower trying to invoke set-off rights and defences as further discussed under sub-paragraph *Set-off or defences* below.

Insolvency of Delta Lloyd Life and Life Insurance Companies

If any of Delta Lloyd Life, in its capacity of Insurance Company, and the Life Insurance Companies would no longer be able to meet its obligations under the Insurance Policies, e.g. in case it is declared bankrupt or subject to emergency regulations, this could result in amounts payable under the Insurance Policies not or only partly being available for application in reduction of the Mortgage Receivables. This may again lead to the Borrower trying to invoke set-off rights and defences as further discussed under paragraph *Set-off or defences*.

Set-off or defences

If the amounts payable under the Insurance Policy are not applied towards redemption of the Mortgage Receivable (see paragraphs *Appointment of Beneficiary and Insolvency of Delta Lloyd Life and Life Insurance Companies*), the Borrower may try to invoke a right of set-off of the amount due under the Mortgage Receivable with amounts payable under or in connection with the Insurance Policy. As set out (in paragraph *Set-off* above) the Borrowers have waived their set-off rights, but it is uncertain whether such waiver is effective. If the waiver is not effective the Borrowers will, in order to invoke a right of set-off, need to comply with the applicable legal requirements. One of these requirements is that the Borrower should have a claim which corresponds to his debt to the same counterparty. In case of Savings Mortgage Receivables of which Delta Lloyd Life is (one of) the Seller(s), this requirement will be met. In case of Mortgage Receivables of which Triahome is the Seller or to which a Life Insurance Policy is connected with any of the Life Insurance Companies, the following is relevant. The Insurance Policies are contracts between the Insurance Company or, as the case may be, the relevant Life Insurance Company and the Borrowers on the one hand and the Mortgage Loans are contracts between Triahome or the relevant Seller(s) respectively and the Borrowers on the other hand. Therefore, in order to invoke a right of set-off, the Borrowers would have to establish that Triahome and the Insurance Company or the relevant Seller(s) and the relevant Life Insurance Company should be regarded as one legal entity or possibly that set-off is allowed, even in the absence of a single legal entity, since, based upon interpretation of case law, the Insurance Policies and Mortgage Loans are to be regarded as one inter-related relationship.

Another requirement is that the Borrowers should have a counterclaim. If the Insurance Company or the relevant Life Insurance Company is declared bankrupt or subject to emergency regulations, the Borrower will have the right to unilaterally terminate the Insurance Policy and to receive a commutation payment (“*afkoopsom*”). These rights are subject to the Borrower Insurance Pledge (see above). However, despite this pledge it may be argued that the Borrower will be entitled to invoke a right of set-off for the commutation payment. Apart from the right to terminate the Insurance Policies, the Borrowers are also likely to have the right to rescind the Insurance Policies and to claim restitution of premiums paid and/or supplementary damages. It is uncertain whether such claim is subject to the Borrower Insurance Pledge. If not, the Borrower Insurance Pledge would not obstruct a right of set-off with such claim by Borrowers.

Finally, set-off *vis-à-vis* the Issuer and/or the Security Trustee would be subject to the additional requirements for set-off after assignment and/or pledge being met (see paragraph *Set-off* above). In the case

of Savings Mortgage Loans such requirement is likely to be met, since the Savings Mortgage Loans and the Savings Mortgage Policies are likely to be regarded as one and the same relationship, but in the case of Life Mortgage Loans with any of the Life Insurance Companies this is unlikely. In the case of Mortgage Loans of which Delta Lloyd Life is (one of the Seller(s), this requirement is also likely to be met. The fact that the Mortgage Receivable is assigned or pledged to the Issuer or the Security Trustee is not likely to interfere with such a set-off (see paragraph *Set-off*).

Even if the Borrowers cannot invoke a right of set-off, they may invoke defences *vis-à-vis* the Sellers, the Issuer and/or the Security Trustee, as the case may be. The Borrowers could, *inter alia*, argue that it was the intention of the parties involved, at least that the Borrowers could rightfully interpret the mortgage documentation and the promotional materials in such manner, that the Mortgage Receivable and the relevant Insurance Policy are to be regarded as one inter-related legal relationship and could on this basis claim a right of annulment or rescission of the Mortgage Loans or that the Mortgage Receivable would be (fully or partially) repaid by means of the proceeds of the Insurance Policy and that, failing such proceeds, the Borrower is not obliged to repay the (corresponding) part of the Mortgage Receivable. On the basis of similar reasoning Borrowers could also argue that the Mortgage Loan and the Insurance Policy were entered into as a result of “error” (“*dwalings*”) or that it would be contrary to principles of reasonableness and fairness (“*redelijkheid en billijkheid*”) for the Borrower to be obliged to repay the Mortgage Receivable to the extent that he has failed to receive the proceeds of the Insurance Policy.

Life Mortgage Loans

In respect of Life Mortgage Loans between Delta Lloyd Life or, as the case may be, Delta Lloyd Life and Delta Lloyd Bank and a Borrower with a Life Insurance Policy between the Insurance Company and such Borrower the Issuer has been advised that there is definitely a risk (“*bepaald een risico*”) that such set-off or defences would be successful, as described above, in view of the factual circumstance involved, *inter alia*, that the Mortgage Loan and such Life Insurance Policy are sold to the Borrower by one legal entity (i.e. Delta Lloyd Life being both the Seller and the Insurance Company) as one single package. In respect of Life Mortgage Loans between Triahome and a Borrower with a Life Insurance Policy between the Insurance Company and such Borrower, the Issuer has been advised that the possibility cannot be disregarded that the courts will honour set-off or defences of Borrowers. In respect of the (remaining) Life Mortgage Loans with Life Insurance Policies taken out with any of the Life Insurance Companies, the Issuer has been advised that, taking into account that the relevant Seller or, as the case may be, the relevant Sellers have represented that with respect to such Mortgage Loans (i) there is no connection, whether from a legal or a commercial point of view, between the Mortgage Loan and the relevant Life Insurance Policy other than the relevant Borrower Insurance Pledge, the rights as beneficiary, (ii) the Mortgage Loans and the Life Insurance Policies are not marketed as one product and (iii) the Borrowers are free to choose the relevant Life Insurance Company, it is unlikely that a court would honour set-off or defences of the Borrowers.

Savings Mortgage Loans

In respect of Savings Mortgage Loans the Issuer has been advised that the risk that such a set-off or defence would be successful is greater than in the case of Life Mortgage Loans in view, *inter alia*, of the close connection between the Savings Mortgage Loan and the Savings Insurance Policy. The Sub-Participation Agreement will provide that in the case of set-off or defences by Borrowers, including but not limited to a right of set-off or defence based upon a default in the performance by the Insurance Company of its obligations under the relevant Savings Insurance Policy, and, as a consequence thereof, the Issuer will not have received any amount due and outstanding under the relevant Savings Mortgage Receivable, the relevant Participation of the Insurance Company will be reduced by an amount equal to the amount which the Issuer has failed to receive. The amount of the Participation is equal to the amount of Savings Premium received by the Issuer plus the accrued yield on such amount (see *Sub-Participation Agreement* below), provided that the Insurance Company will have paid all Savings Premia received from the relevant Borrowers to the Issuer. Therefore, normally the Issuer would not suffer any damages if the Borrower would invoke any such right of set-off or defences, if and to the extent that the amount for which the Borrower would invoke set-off or defence does not exceed the amount of the Participation. The amount for which the Borrower can invoke set-off or defences may, depending on the circumstances, exceed the amount of the Participation.

Construction Amounts

Pursuant to the Mortgage Conditions, the Borrowers have the right to request to withhold the Construction Amount to be paid out in case certain conditions are met. The aggregate amount of the

Construction Amounts as per 1 May 2003 is euro 15,882,872.98. The Issuer and the Seller will agree in the Mortgage Receivables Purchase Agreement that the Issuer will be entitled to withhold from the Initial Purchase Price an amount equal to such aggregate Construction Amounts. Such amount will be deposited on the Construction Account. On each Quarterly Payment Date the Issuer will release from the Construction Account such part of the Initial Purchase Price which equals the difference between the aggregate Construction Amounts and the balance standing to the credit of the Construction Account and pay such amount to Delta Lloyd Life for the benefit of the relevant Seller(s).

Pursuant to the Mortgage Conditions, Construction Amounts have to be paid out within 12 months. Upon the expiry of such period the remaining Construction Amount will be set-off against the relevant Mortgage Receivable up to the amount of the Construction Amount, in which case the Issuer shall have no further obligation towards the Seller to pay the remaining part of the Initial Purchase Price, and consequently any remaining part of the Construction Account will be used for redemption of the Notes in accordance with the Conditions of the Notes. If a Notification Event has occurred, the Issuer will no longer be under the obligation to pay such remaining part of the Initial Purchase Price. The amount for which the Borrower can invoke set-off or defences may, depending on the circumstances, exceed the amount of the Construction Amount.

Under Netherlands law the distinction between ‘existing’ (“*bestaande*”) receivables and ‘future’ (“*toekomstige*”) receivables is relevant. If receivables are to be regarded as future receivables, an assignment and/or pledge thereof will not be effective to the extent the receivable comes into existence after or on the date on which the assignor or, as the case may be, the pledgor has been declared bankrupt or granted a suspension of payments (emergency regulations). If, however, receivables are to be considered as existing receivables, the assignment and pledge thereof are not affected by the bankruptcy or suspension of payments (emergency regulations) of the assignor/pledgor. The Issuer has been advised that based on case law and legal literature uncertainty remains whether on the basis of the applicable terms and conditions the part of the Mortgage Receivables relating to the Construction Amounts are considered to be existing receivables. It could be argued that such part of the Mortgage Loan concerned comes into existence only when and to the extent the Construction Amount is paid out. If the part of the Mortgage Receivable relating to the Construction Amount is to be regarded as a future receivable, the assignment and/or pledge of such part will not be effective if the Construction Amount is paid out on or after the date on which the relevant Seller is declared bankrupt or become subject to emergency regulations or, as the case may be, granted suspension of payments.

Reduced value of investments

If the value of the investments made under the Investment Mortgage Loans has reduced considerably, Borrowers may invoke set-off or defences against the Issuer on the ground that the Seller has not properly informed them on the risks involved in the investments. The merits of any such claim will very much depend on the manner in which the Investment Mortgage Loans have been marketed and the promotional material provided to the Borrower. The above may also apply in case of a reduction in value of investments made by one of the Insurance Companies in connection with the Life Insurance Policies.

Long lease

The mortgage rights securing the Mortgage Loans may be vested on a long lease (“*erfpacht*”), as further described in *Description of Mortgage Loans* below.

A long lease will, *inter alia*, end as a result of expiration of the long lease term (in case of lease for a fixed period), or termination of the long lease by the leaseholder or the landowner. The landowner can terminate the long lease in the event the leaseholder has not paid the remuneration due for a period exceeding two consecutive years or seriously breaches other obligations under the long lease. In case the long lease ends, the landowner will have the obligation to compensate the leaseholder. In such event the mortgage right will, by operation of law, be replaced by a right of pledge on the claim of the (former) leaseholder on the landowner for such compensation. The amount of the compensation will, *inter alia*, be determined by the conditions of the long lease and may be less than the market value of the long lease.

When underwriting a Mortgage Loan to be secured by a mortgage right on a long lease, the Seller will take into consideration the conditions, including the term, of the long lease. The acceptance conditions used by the Seller provide that in such event the Mortgage Loan shall have a maturity that is shorter than the term of the long lease. The general terms and conditions of the Mortgage Loans provide that the Mortgage Loan becomes immediately due and payable in the event that, *inter alia*, (i) the leaseholder has not paid the remuneration, (ii) the conditions of the long lease are changed, (iii) the lease holder breaches any obligation under the long lease, or (iv) the long lease is dissolved or terminated.

Exercise of call option

In accordance with the Conditions, the Issuer has the option to call all (but not some only) of the Notes on any Optional Redemption Date. Pursuant to the Trust Deed the Issuer has on any Optional Redemption Date the right to sell and assign the Mortgage Receivables to a third party, which may also be any of the Sellers, provided that the Issuer shall apply the proceeds of such sale to redeem the Notes. The purchase price of the Mortgage Receivables shall be equal to the outstanding principal amount, together with accrued interest due but unpaid, if any, of each Mortgage Receivable, except that with respect to Mortgage Receivables which are in arrears for a period exceeding 90 days or in respect of which an instruction has been given to a civil law notary to start foreclosure proceedings, the purchase price shall be at least the lesser of (i) an amount equal to the foreclosure value of the Mortgaged Asset or, if no valuation report of less than 12 months old is available, the indexed foreclosure value and (ii) the sum of the outstanding principal amount together with accrued interest due but not paid, if any and any other amount due under the Mortgage Loan except that with respect to Mortgage Loans having the benefit of a Municipality Guarantee or a NHG Guarantee, the purchase price shall be at least the lesser of (i) the sum of the amount claimable under the Municipality Guarantee or NHG Guarantee, and an amount equal to the foreclosure value of the Mortgaged Asset or, if no valuation report of less than 12 months old is available, the indexed foreclosure value and (ii) the sum of the outstanding principal amount together with accrued interest due but not unpaid, if any and any other amount due under the Mortgage Loan. No guarantee can be made that the Issuer will exercise this call option. If the call option is not exercised, the interest basis on the Notes will be 3-months Euribor plus a margin per annum, such margin to be for the Senior Class A1 Notes 1.00 per cent., for the Senior Class A2 Notes 1.00 per cent., for the Mezzanine Class B Notes 1.50 per cent., for the Junior Class C Notes 3.00 per cent. and for the Subordinated Class D Notes 5.00 per cent. as of the Floating Rate Interest Period beginning on the first Optional Redemption Date.

Proposed European Union Directive on the taxation of savings

On 13 December 2001 the ECOFIN Council published a revised proposal for an EU Directive on the taxation of savings. This proposal applies to interest payments made in one Member State to or for the benefit of individual beneficial owners resident in another Member State and would require all Member States to adopt an information reporting system with regard to such payments. However, for a transitional period of seven years starting on 1 January 2004 Austria, Belgium and Luxembourg would be permitted to operate a withholding tax system. Member States would be required to implement the Directive by 1 January 2004. Under the proposed information reporting system, a Member State would automatically communicate to the beneficial owner's Member State of residence information regarding interest payments (including the identity and residence of the beneficial owner) made by paying agents established within the former State, without requiring reciprocity. Under the proposed withholding tax system (for Austria, Belgium and Luxembourg), a Member State would levy a withholding tax at a rate of 15% during the first three years of the transitional period and 20% for the remainder. However, under a political agreement reached on 21 January 2003 it was agreed that the withholding tax rate would be increased as from 1 January 2010 to 35%. It was also agreed that those Member States permitted to levy a withholding tax would implement an information reporting system to effectively replace the withholding tax system if and when the EU enters into certain agreements with specified third countries regarding information reporting.

Under the proposal as published on 13 December 2001, the term "paying agent" means, generally, the last intermediary in any given chain of intermediaries that pays interest directly to, or secures the payment of interest for the immediate benefit of, the beneficial owner; the term "interest" is defined broadly and would include interest relating to debt-claims of every kind, including income from bonds; and the term "beneficial owner" means any individual who receives an interest payment or any individual for whom an interest payment is secured, unless he provides evidence that it was not received or secured for his own benefit.

It is currently not possible to predict whether, when, or in what form the proposal will ultimately be adopted. If the proposed Directive is adopted in its current form (as amended by the above-mentioned political agreement), an individual Holder of Notes who is resident in an EU Member State other than the Netherlands may become subject to the automatic supply of information to the Member State in which the individual is resident with regard to interest payments made by (or in certain cases, to) paying agents established in the Netherlands. Pending an agreement on the final text of the Directive, it is not possible to say what final effect the adoption of the proposed Directive on the taxation of savings will have on the Notes or payments in respect thereof.

Swap Agreement

The Swap Counterparty will be obliged to make payments under the Swap Agreement without any withholding or deduction of taxes unless required by law. If any such withholding or deduction is required by law, the Swap Counterparty will be required to pay such additional amount as is necessary to ensure that the net amount actually received by the Issuer will equal the full amount that the Issuer would have received had no such withholding or deduction been required. The Swap Agreement will provide, however, that if due to (i) action taken by a relevant taxing authority or brought in a court of competent jurisdiction, or (ii) any change in tax law, in both cases after the date of the Swap Agreement, the Swap Counterparty will, or there is a substantial likelihood that it will, be required to pay to the Issuer additional amounts for or on account of tax (a 'Tax Event'), the Swap Counterparty may (with the consent of the Issuer and the Rating Agencies) transfer its rights and obligations to another of its offices, branches or affiliates to avoid the relevant Tax Event.

The swap transaction will be terminable by one party if (i) an event of default occurs in relation to the other party, (ii) it becomes unlawful for either party to perform its obligations under the Swap Agreement or (iii) an Enforcement Notice is served. Events of default in relation to the Issuer in the Swap Agreement will be limited to (i) non-payment under the Swap Agreement, (ii) a merger or similar transaction with another entity or person without assumption of the Issuer's obligations under the Swap Agreement and (iii) insolvency events. The swap transaction will terminate on the earlier of the Final Maturity Date and the date on which the relevant Class of Notes has been redeemed or written-off in full in accordance with the Conditions.

Risks inherent to the Notes

By acquiring the Notes, the Noteholders shall be deemed to have knowledge of, accept and be bound by the Conditions. The Issuer and the Paying Agent will not have any responsibility for the proper performance by Euroclear and/or Clearstream, Luxembourg or its participants of their obligations under their respective rules, operating procedures and calculation methods.

(i) Credit Risk

The risk of loss on principal and interest on the Notes due to losses on principal and interest on the Mortgage Receivables is addressed and mitigated by:

- in the case of the Senior Class A Notes, the subordinated ranking of the Mezzanine Class B Notes and the Junior Class C Notes;
- in the case of the Senior Class A Notes and the Mezzanine Class B Notes the subordinated ranking of the Junior Class C Notes;
- the Reserve Account; and
- the Excess Margin (as defined below in *Credit Structure*).

(ii) Liquidity Risk

The risk that interest and/or principal on the underlying Mortgage Receivables is not received on time thus causing temporary liquidity problems to the Issuer is addressed and mitigated by the Excess Margin, the Reserve Account (to the extent available for such payments) and in certain circumstances the Liquidity Facility.

(iii) Prepayment Risk

The risk that prepayments by the Borrowers result in negative carry costs is addressed as follows:

- as a result of the structure of the Swap Agreement the Issuer will not suffer losses of interest from prepayments;
- the Senior Class A1 Notes permit the return of principal to Noteholders on the Quarterly Payment Date falling in August 2003 and on each Quarterly Payment Date thereafter. In case the Senior Class A1 Notes are redeemed prior to the first Optional Redemption Date, the prepayments will be deposited on the Issuer Collection Account or invested in certain securities.

(iv) Maturity Risk

The risk that the Issuer will not have received sufficient principal to fully redeem the Notes. The Final Maturity Date for the Notes is the Quarterly Payment Date falling in May 2055. On each Optional Redemption Date, the Issuer may at its option redeem all Notes in accordance with Condition 6(e). If the Issuer does not exercise such call option the interest basis for all the Notes will be a Euribor based floating

rate plus the margin set out above in paragraph *Exercise of the Call Option*. No guarantee can be given that the Issuer will exercise its option to redeem the Notes.

(v) Interest Rate Risk

The risk that the interest received on the Mortgage Receivables and the Transaction Accounts is not sufficient to pay the interest on the Notes is addressed by the Swap Agreement.

(vi) Payments on the Mortgage Loans

Payments on the Mortgage Loans are subject to credit, liquidity and interest rate risks and will generally vary in response to, among other things, market interest rates, general economic conditions, the financial standing of Borrowers and other similar factors. Other factors such as loss of earnings, illness, divorce and other similar factors may lead to an increase in delinquencies and bankruptcy filings by Borrowers and could ultimately have an adverse impact on the ability of Borrowers to repay their Mortgage Loans.

CREDIT STRUCTURE

The structure of the credit arrangements for the proposed issue of the Notes may be summarised as follows:

Mortgage Loan Interest Rates

The interest rate of each Mortgage Loan is fixed, subject to a reset from time to time. On the Closing Date the weighted average interest rate of the Mortgage Loans is expected to be 5.362 per cent. Interest rates vary between individual Mortgage Loans. The range of interest rates is described further in *Description of the Mortgage Loans* below.

Cash Collection Arrangement

Payments by the Borrowers of interest and scheduled principal under the Mortgage Loans are due on the 1st day of each month, interest being payable in arrear. All payments made by Borrowers will be paid into the Seller Collection Accounts. These accounts are not pledged to any party at the moment other than to the bank at which they are maintained pursuant to the applicable terms and conditions. These accounts will also be used for the collection of moneys paid in respect of mortgage loans other than Mortgage Loans and in respect of other moneys belonging to the relevant Seller.

On each Mortgage Payment Date (being the 12th day of each calendar month or if this is not a business day the next succeeding business day) the MPT Provider shall transfer all amounts of principal, interest, prepayment penalties and interest penalties received by Delta Lloyd Life in respect of the Mortgage Loans during the immediately preceding Mortgage Calculation Period (defined below) to the Issuer Collection Account.

For these purposes a ‘**Mortgage Calculation Period**’ is the period commencing on (and including) the first day of a calendar month and ending on (and including) the last day of such calendar month.

Transaction Accounts

The Issuer will maintain with the Floating Rate GIC Provider the Issuer Collection Account to which all amounts received (i) in respect of the Mortgage Loans, (ii) from the Insurance Company pursuant to the Sub-Participation Agreement and (iii) from the other parties to the Relevant Documents will be paid.

The Issuer will also maintain with the Floating Rate GIC Provider the Construction Account to which on the Closing Date an amount corresponding to the aggregate Construction Amounts will be credited. Payments may be made from the Construction Account on a Quarterly Payment Date only to satisfy payment by the Issuer to Delta Lloyd Life of (part of) the Initial Purchase Price as a result of the distribution of (part of) the Construction Amount by the relevant Seller(s) to the relevant Borrowers. Besides this, the Construction Account will be debited with the amount Borrowers have set off against the relevant Mortgage Receivables in connection with the Construction Amounts and as a result in respect of which the Issuer has no further obligation to pay (such part of) the Initial Purchase Price. Such amount will be transferred to the Issuer Collection Account.

The Issuer will also maintain with the Floating Rate GIC Provider the Reserve Account (see below).

The Company Administrator will identify all amounts paid into the Issuer Collection Account by crediting such amounts to ledgers established for such purpose. Payments received on each Mortgage Payment Date in respect of the Mortgage Loans will be identified as principal or revenue receipts and credited to a principal ledger (the ‘**Principal Ledger**’) or a revenue ledger (the ‘**Revenue Ledger**’), as the case may be.

If the Senior Class A1 Notes are redeemed in full prior to the first Optional Redemption Date, the Notes Redemption Available Amount will not be used for redemption of the Senior Class A2 Notes, the Mezzanine Class B Notes and the Junior Class C Notes until the first Optional Redemption Date. Instead, the Notes Redemption Available Amount will be deposited on the Issuer Collection Account or, at the option of the Issuer, be invested in (a) Euro nominated securities with a maturity not beyond the first Optional Redemption Date provided that such securities have been assigned either (i) a rating of Aaa by Moody’s in case of a remaining tenor longer than 6 months or (ii) a rating of Prime-1 by Moody’s in case of a remaining tenor of lesser than 90 days or (b) other securities provided that Moody’s has given prior confirmation that such investment will not adversely affect the then current ratings assigned to the Notes.

If at any time (i) the short-term unsecured, unsubordinated and unguaranteed debt obligations of the Floating Rate GIC Provider are assigned a rating of less than Prime-1 by Moody’s and/or F1+ by Fitch or (ii) if the amount standing to the credit of the Issuer Collection Account exceeds euro 50,000,000 the long-term unsecured unsubordinated and unguaranteed debt obligations of the Floating Rate GIC Provider are assigned a rating of less than Aa3 by Moody’s, the Issuer will be required within 30 days to transfer the

balance on the Issuer Collection Account to an alternative bank with the required minimum rating or to obtain a third party, acceptable to Moody's and Fitch, to guarantee the obligations of the Floating Rate GIC Provider.

Priority of payments in respect of interest

Prior to the delivery of an Enforcement Notice by the Security Trustee, the sum of the following amounts, calculated as at each Quarterly Calculation Date (being the fourth business day prior to the Quarterly Payment Date falling in August, November, February and May or, if this is not a business day, the immediately preceding business day) as being received during the Quarterly Calculation Period (as defined in Condition 6(c)(v)) immediately preceding such Quarterly Calculation Date (items (i) up to and including (xi) being hereafter referred to as the 'Notes Interest Available Amount'):

- (i) as interest on the Mortgage Receivables less, with respect to each Savings Mortgage Receivable, an amount calculated as follows: $R \times P/SMR$ whereby R = the interest received on such Savings Mortgage Receivable, P = Participation in such Savings Mortgage Receivable and SMR = the principal amount due on such Savings Mortgage Receivable in and less any amounts paid to the Swap Counterparty under the Swap Agreement at the two immediately preceding Swap Payment Dates in the relevant Calculation Period;
- (ii) as interest accrued on the Issuer Collection Account and the Reserve Account;
- (iii) as prepayment penalties and interest penalties under the Mortgage Receivables;
- (iv) as Net Proceeds (as defined in the Conditions) on any Mortgage Receivables to the extent such proceeds do not relate to principal less, with respect to each Savings Mortgage Receivable, an amount calculated as follows: $Q \times P/SMR$ whereby Q = the amount not relating to principal received on such Savings Mortgage Receivable, P = Participation in such Savings Mortgage Receivable and SMR = the principal amount due on such Savings Mortgage Receivable;
- (v) as amounts to be drawn under the Liquidity Facility (other than Liquidity Facility Stand-by Drawings) (defined below) on the immediately succeeding Quarterly Payment Date;
- (vi) as amounts to be drawn from the Reserve Account on the immediately succeeding Quarterly Payment Date;
- (vii) as amounts to be received from the Swap Counterparty under the Swap Agreement on the immediately succeeding Quarterly Payment Date if any;
- (viii) as amounts received in connection with a repurchase of Mortgage Receivables pursuant to the Mortgage Receivables Purchase Agreement, or any other amounts received pursuant to the Mortgage Receivables Purchase Agreement, to the extent such amounts do not relate to principal less, with respect to each Savings Mortgage Receivable, an amount calculated as follows: $Q \times P/SMR$ whereby Q = the amount not relating to principal received on such Savings Mortgage Receivable, P = Participation in such Savings Mortgage Receivable and SMR = the principal amount due on such Savings Mortgage Receivable;
- (ix) as amounts received in connection with a sale of Mortgage Receivables pursuant to the Trust Deed to the extent such amounts do not relate to principal less, with respect to each Savings Mortgage Receivable, an amount calculated as follows: $Q \times P/SMR$ whereby Q = the amount not relating to principal received on such Savings Mortgage Receivable, P = Participation in such Savings Mortgage Receivable and SMR = the principal amount due on such Savings Mortgage Receivable unless the Participation is assigned as well to the purchaser of the Savings Mortgage Receivables;
- (x) as amounts received as post-foreclosure proceeds on the Mortgage Receivables;
- (xi) any (remaining) amounts standing to the credit of the Issuer Collection Account to the extent they relate to interest or penalties.

will pursuant to terms of the Trust Deed be applied by the Issuer on the immediately succeeding Quarterly Payment Date as follows (in each case only if and to the extent that payments of a higher order of priority have been made in full) (the 'Interest Priority of Payments'):

- (a) *first*, in or towards satisfaction, *pro rata*, according to the respective amounts thereof, of the fees or other remuneration due and payable to the Directors in connection with the Management Agreements and any costs, charges, liabilities and expenses incurred by the Security Trustee under or in connection with any of the Relevant Documents;
- (b) *second*, in or towards satisfaction of fees and expenses due and payable to the MPT Provider, the Defaulted Loan Servicer and the Company Administrator under the Issuer Services Agreement;

- (c) *third*, in or towards satisfaction, *pro rata*, according to the respective amounts thereof, (i) of any amounts due and payable to third parties under obligations incurred in the Issuer's business (other than under the Relevant Documents), including, without limitation, in or towards satisfaction of sums due or provisions for any payment of the Issuer's liability, if any, to tax and sums due to the relevant rating agencies and fees and expenses of any legal advisor, auditors and/or accountants appointed by the Issuer and/or the Security Trustee and (ii) fees and expenses due to the Paying Agent and the Reference Agent under the Paying Agency Agreement;
- (d) *fourth*, (i) in or towards satisfaction of any amounts due and payable to the Liquidity Facility Provider under the Liquidity Facility, but excluding any gross-up amounts due under the Liquidity Facility and payable under (i) below, or (ii) following a Liquidity Facility Stand-by Drawing in or towards satisfaction of sums to be credited to the Liquidity Facility Stand-by Ledger;
- (e) *fifth*, in or towards satisfaction, *pro rata*, according to the respective amounts thereof, of (i) all amounts of interest due or accrued due but unpaid in respect of the Senior Class A Notes and (ii) amounts, if any, due but unpaid under the Swap Agreement, other than amounts due in connection with the termination of the Swap Agreement including a Settlement Amount (as defined therein);
- (f) *sixth*, in or towards satisfaction of interest due or accrued due but unpaid on the Mezzanine Class B Notes;

Priority of Payments upon Enforcement

Following delivery of an Enforcement Notice any amounts payable by the Security Trustee under the Deed of Surety, other than in respect of the Participations, will be paid to the Secured Parties (including the Noteholders, but excluding the Insurance Company in the following order of priority (and in each case only if and to the extent payments of a higher priority have been made in full) (the '**Priority of Payments upon Enforcement**')

- (a) *first*, in or towards satisfaction, *pro rata* according to the respective amounts thereof, of (i) the fees or other remuneration due to the Directors, (ii) any cost, charge, liability and expenses incurred by the Security Trustee under or in connection with any of the Relevant Documents, which will include, *inter alia*, the fees and expenses of Moody's and Fitch, any legal advisor, auditor, accountants appointed by the Security Trustee, (iii) the fees and expenses of the Paying Agent and the Reference Agent incurred under the provisions of the Paying Agency Agreement and (iv) the fees and expenses of the MPT Provider, the Company Administrator and the Defaulted Loan Servicer under the Issuer Services Agreement;

- (j) *tenth*, in or towards satisfaction of all amounts of principal and any other amount due but unpaid in respect of the Subordinated Class D Notes;
- (k) *eleventh*, to the Swap Counterparty in or towards payments of any amounts due under the Swap Agreement in respect of the Issuer's obligations in respect of the costs (other than any Settlement Amounts) to be paid by the Issuer upon an early termination of the Swap Agreement, as determined in accordance with its terms;
- (l) *twelfth*, in or towards satisfaction of gross up amounts due, if any, to the Liquidity Facility Provider under the Liquidity Facility Agreement, and
- (m) *thirteenth*, in and towards satisfaction of any Deferred Purchase Price Instalment to Delta Lloyd Life on behalf of the Sellers.

Liquidity Facility

On the Closing Date, the Issuer will enter into the Liquidity Facility Agreement with the Liquidity Facility Provider. The Issuer will be entitled on any Quarterly Payment Date (other than on (i) an Optional Redemption Date if and to the extent the Notes, other than the Subordinated Class D Notes, are redeemed in full or (ii) the Final Maturity Date) to make drawings under the Liquidity Facility up to the Liquidity Facility Maximum Amount (as defined below). The Liquidity Facility Agreement is for a term of 364 days. The commitment of the Liquidity Facility Provider is extendable at its option. Any drawing under the Liquidity Facility by the Issuer shall only be made on a Quarterly Payment Date if and to the extent that, before the application of amounts available on the Reserve Account and before any drawing under the Liquidity Facility, there is a shortfall in the Notes Interest Available Amount to meet items (a) to (h) (inclusive) in the Interest Priority of Payments in full on that Quarterly Payment Date. The Liquidity Facility Provider will rank in priority in point of payments and security to the Notes.

If, at any time, (i) the short-term unsecured, unsubordinated and unguaranteed debt obligations of the Liquidity Facility Provider are assigned a rating of less than Prime-1 by Moody's and/or F1+ by Fitch and (ii) the Liquidity Facility is not renewed or replaced by the Issuer with a suitable alternative Liquidity Facility Provider within 30 days of such downgrading or alternatively the Liquidity Facility Provider has procured that a guarantee for its obligations in favour of the Issuer has been issued and (iii) the then current ratings of the Notes are materially adversely affected, the Issuer will be required forthwith to draw down the entirety of the undrawn portion of the Liquidity Facility (a '**Liquidity Facility Stand-by Drawing**') and credit such amount to the Issuer Collection Account with a corresponding credit to a ledger to be known as the '**Liquidity Facility Stand-by Ledger**'. Amounts so credited to the Issuer Collection Account may be utilised by the Issuer in the same manner as a drawing under the Liquidity Facility. A Liquidity Facility Stand-by Drawing shall also be made if the Liquidity Facility is not renewed following its commitment termination date.

For these purposes, '**Liquidity Facility Maximum Amount**' means, on each Quarterly Calculation Date, 3 per cent. of the aggregate Principal Amount Outstanding of the Notes on such date.

Reserve Account

The net proceeds of the Subordinated Class D Notes will be credited to the Reserve Account.

Amounts credited to the Reserve Account will be available on any Quarterly Payment Date to meet items (a) to (n) (inclusive) of the Interest Priority of Payments, after application of any funds drawn under the Liquidity Facility.

If and to the extent that the Notes Interest Available Amount on any Quarterly Calculation Date exceeds the amounts required to meet items ranking higher in the Interest Priority of Payments, the excess amount will be applied to replenish and/or build up of the Reserve Account as the case may be, until the balance standing to the credit of the Reserve Account equals the Reserve Account Required Amount. The Reserve Account Required Amount shall on any Quarterly Calculation Date be equal to (i) 0.5 per cent. of the aggregate Principal Amount Outstanding of the Notes, other than the Subordinated Class D Notes, on the Closing Date or (ii) 1.35 per cent. of the aggregate Principal Amount Outstanding of the Notes, other than the Subordinated Class D Notes, on the Closing Date in case (a) the aggregate outstanding principal amount of all Mortgage Receivables in arrears for more than 60 days exceeds 1.0 per cent. of the aggregate outstanding principal amount of all Mortgage Receivables; or (b) if on the first Optional Redemption Date the Notes, other than the Subordinated Class D Notes have not been redeemed in full or (iii) zero on the Optional Redemption Date whereon the Notes, other than the Subordinated Class D Notes, have been or are to be redeemed in full, subject to the Conditions.

To the extent that the balance standing to the credit of the Reserve Account on any Quarterly Calculation Date exceeds the Reserve Account Required Amount, such excess shall be drawn from the Reserve Account on the immediately succeeding Quarterly Payment Date and shall form part of the Notes Interest Available Amount on that Quarterly Payment Date.

After all amounts of interest and principal due in respect of the Notes, except for principal in respect of the Subordinated Class D Notes, have been paid, any amount standing to the credit of the Reserve Account will be applied to redeem or partially redeem, as the case may be, the Subordinated Class D Notes.

Principal Deficiency Ledger

The Principal Deficiency Ledger will be established by or on behalf of the Issuer in order to record any Realised Losses on the Mortgage Receivables (a '**Principal Deficiency**'). Any Principal Deficiency shall be debited to the Principal Deficiency Ledger (such debit items being recredited at item (n) of the Interest Priority of Payments) so long as the debit balance on such ledger is less than the Principal Amount Outstanding of the Notes.

'**Realised Losses**' means, on any Quarterly Calculation Date, the sum of (a) the amount of the difference between the aggregate outstanding Principal Amount on all Mortgage Receivables, less the Participations, on which the Seller or the Defaulted Loan Servicer or the Issuer has foreclosed from Closing up to and including such Quarterly Calculation Date and the Amount of the Net Proceeds applied to reduce the outstanding principal amount of such Mortgage Receivables and (b) with respect to Mortgage Receivables sold by the Issuer, the amount of the difference, if any, between (x) the aggregate Outstanding Principal Amount of such Mortgage Receivables and (y) the purchase price received in respect of such Mortgage Receivables to the extent relating to the principal less the relevant Participations.

Interest Rate Hedging

The Mortgage Loan Criteria (as defined under *Mortgage Receivables Purchase Agreement* below) require that all Mortgage Loans bear floating or a fixed rate of interest, a rate which is subject to a reset from time to time. Up to the first Optional Redemption Date, the interest rate payable by the Issuer with respect to (i) the Senior Class A1 Notes and the Subordinated Class D Notes is calculated as a margin over Euribor and (ii) the Senior Class A2 Notes, the Mezzanine Class B Notes and the Junior Class C Notes is a fixed rate of interest. After such date the interest rate payable by the Issuer on the Senior Class A1 Notes, the Senior Class A2 Notes, the Mezzanine Class B Notes, the Junior Class C Notes and the Subordinated Class D Notes will be calculated as a margin over Euribor. The Issuer will hedge its interest rate exposure by entering into the Swap Agreement with the Swap Counterparty.

Under the Swap Agreement, the Issuer will agree to pay on each Swap Payment Date (being the 15th day of each month or in case of a month in which a Quarterly Payment Date falls, such Quarterly Payment Date) the sum of

- (a) the scheduled interest on the Mortgage Receivables less, with respect to each Savings Mortgage Receivable, an amount calculated as follows: $R \times P/SMR$, whereby R= the interest received on such Savings Mortgage Receivable; P= Participation in such Savings Mortgage Receivable and SMR = the Outstanding Principal Amount of such Savings Mortgage Receivable; and
- (b) the interest accrued on the Issuer Collection Account and the Reserve Account; less
- (y) an excess margin of 0.5 per cent. per annum applied to the relevant Principal Amount Outstanding of the Notes on the first day of the relevant Floating Rate Interest Period divided by three (the '**Excess Margin**'); and

- (z) the operating expenses set out in items (a) up to and including (c) of the Interest Priority of Payments payable during each calendar year divided by twelve.

The Swap Counterparty will agree to pay amounts equal to the scheduled interest due under the Notes, and calculated by reference to the floating rate of interest or, as the case may be, to the fixed rate of interest applied to the Principal Amount Outstanding of the relevant Class of Notes on the first day of the relevant Floating Rate Interest Period or Fixed Rate Interest Period, as the case may be.

Adjustment of Swap Amounts

If the sum of scheduled interest actually received and interest (including penalties) recovered on the Mortgage Receivables, less in case of a Savings Mortgage Receivable, the Participation, falls short of scheduled interest receivable on the Mortgage Receivables, less in case of a Savings Mortgage Receivable, the Participation, the payment obligation of the Issuer will be reduced with an amount equal to such shortfall. In such event the payment of the Swap Counterparty will be adjusted accordingly on a Euro for Euro basis. Such reduction could result in the Issuer not having sufficient funds available to meet its payment obligations in accordance with the priorities described above. In case there is a swap adjustment made during an Annual Calculation Period, the Deferred Purchase Price will be decreased with the amount of such swap adjustment.

Pursuant to the Swap Agreement, if, at any time, (i) the long-term, unsecured and unsubordinated debt obligations of the Swap Counterparty (or its successor) cease to be rated at least as high as A1 (or its equivalent) by Moody's or (ii) the short-term, unsecured and unsubordinated debt obligations of the Swap Counterparty (or its successor) cease to be rated at least as high as Prime-1 (or its equivalent) by Moody's or as long as the Swap Counterparty's unsecured, unsubordinated and unguaranteed debt obligations are not rated by Moody's and Moody's has notified the Issuer that Delta Lloyd continuing to act as Swap Counterparty would result in a downgrade of the Notes if at any time (i) the long-term, unsecured and unsubordinated debt obligations of Aviva Plc, currently the indirect shareholder of the Swap Counterparty (or its successor) cease to be rated at least as high as Aa3 (or its equivalent) by Moody's or (ii) the short-term, unsecured and unsubordinated debt obligations of the Swap Counterparty (or its successor) cease to be rated at least as high as Prime-1 (or its equivalent) by Moody's (such ratings together the '**Moody's Required Ratings I**'); or (iii) if at any time Aviva Plc ceases to hold – directly or indirectly – 100% of the shares in the current Swap Counterparty, then the Swap Counterparty will, on a reasonable efforts basis and at its own cost attempt to:

- (a) transfer all of the rights and obligations of the Swap Counterparty to either (x) a replacement third party with the Moody's Required Ratings I domiciled in the same legal jurisdiction as the Swap Counterparty or the Issuer or (y) a replacement third party agreed by Moody's; or
- (b) procure another person to become guarantor in respect of the obligations of the Swap Counterparty under the Swap Agreement. Such guarantor may be either (x) a person with the Moody's Required Ratings I domiciled in the same legal jurisdiction as the Swap Counterparty or the Issuer, or (y) a person agreed by Moody's; or
- (c) take such other action as the Swap Counterparty may agree with Moody's.

Pending compliance with (a), (b) or (c) above, the Swap Counterparty will, at its own cost:

- (d) within thirty (30) days of the occurrence of such downgrade, put in place a mark-to-market collateral agreement in a form and substance acceptable to Moody's (which may be based on the credit support documentation published by ISDA, or otherwise, and relates to collateral in the form of cash or securities or both (the '**Collateral Amount**')) in support of its obligations under the Swap Agreement which complies with, and complying with, in relation to the Collateral Amount, certain criteria set by Moody's or any other amount which might be agreed with Moody's.

If any of (a), (b) or (c) are satisfied at any time, all collateral (or the equivalent thereof, as appropriate) transferred by the Swap Counterparty pursuant to (d) above will be retransferred to the Swap Counterparty and the Swap Counterparty will not be required to transfer any additional collateral.

Pursuant to the Swap Agreement, if, at any time, (i) the long-term, unsecured and unsubordinated debt obligations of the Swap Counterparty (or its successor) cease to be rated at least as high as A3 (or its equivalent) by Moody's or (ii) the short-term, unsecured and unsubordinated debt obligations of the Swap Counterparty (or its successor) cease to be rated at least as high as Prime-2 (or its equivalent) by Moody's or as long as the Swap Counterparty's unsecured, unsubordinated and unguaranteed debt obligations are not rated by Moody's and Moody's has notified the Issuer that Delta Lloyd continuing to act as Swap Counterparty would result in a downgrade of the Notes if at any time (i) the long-term, unsecured and unsubordinated debt obligations of Aviva Plc, currently the indirect shareholder of the Swap Counterparty

(or its successor) cease to be rated at least as high as A2 (or its equivalent) by Moody's or (ii) the short-term, unsecured and unsubordinated debt obligations of the Swap Counterparty (or its successor) cease to be rated at least as high as Prime-2 (or its equivalent) by Moody's (such ratings together the '**Moody's Required Ratings II**'); or (iii) if at any time Aviva Plc ceases to hold – directly or indirectly – 100% of the shares in the current Swap Counterparty, then certain stricter additional requirements will apply as further defined in the Swap Agreement.

Pursuant to the Swap Agreement, if, at any time, (i) the short-term unsecured, unsubordinated and unguaranteed debt obligations of the Swap Counterparty are assigned a rating of less than F1+ by Fitch (the '**Fitch Required Rating**'), or (ii) any such rating is withdrawn by Fitch, or (iii) as long as the Swap Counterparty's unsecured, unsubordinated and unguaranteed debt obligations are not rated by Fitch and Fitch has notified the Issuer that Delta Lloyd continuing to act as Swap Counterparty would result in a downgrade of the Notes, which notification in respect of Fitch could, *inter alia*, be the result of Fitch assigning a rating to the unsecured, unsubordinated and unguaranteed debt obligations of Aviva plc, currently the indirect shareholder of the Swap Counterparty below F1+ by Fitch (currently Aviva Plc's short term rating by Fitch), then the Swap Counterparty will, at its own cost, within thirty (30) days of such reduction or withdrawal of any such rating, (i) obtain a third party, acceptable to Fitch, the Issuer and the Security Trustee, to guarantee the obligations of the Swap Counterparty under the Swap Agreement subject to confirmation in writing from Fitch that the identity of such third party and the terms of the guarantee will not adversely affect the rating of the Notes, or (ii) provide credit support sufficient to maintain the rating of the Notes which would have subsisted but for the then current rating of the Swap Counterparty subject to confirmation in writing from Fitch that the reduction or withdrawal of the rating of the Swap Counterparty will not adversely affect the rating of the Notes, or (iii) transfer and assign its rights and obligations under the Swap Agreement to a third party acceptable to Fitch, the Issuer and the Security Trustee, or (iv) find any other solution necessary to assist the Issuer in maintaining the then current rating of the Notes, in each case in accordance with and subject to the provisions of the Swap Agreement and the Trust Deed.

Any capitalised term used above but not defined herein shall have the meaning given to it in the Swap Agreement.

THE DUTCH RESIDENTIAL MORTGAGE MARKET

The Dutch housing market is relatively stable compared to certain other European Union countries and has not experienced any drastic downturns like for example the United Kingdom. However, when comparing the Dutch housing market to other European Union countries, some differences are apparent.

The Netherlands have a low level of owner occupancy. Approximately 52 per cent. of all houses are occupied by their owners, compared to 42 per cent. in 1982. The average level of house ownership for all EU countries is 64 per cent. Table 1 below shows the growth of the total Dutch residential stock and the proportion of those that are owner occupied.

In the Netherlands, an overvalue of circa EUR 390 bln is available to back the Outstanding Mortgage Debt of 350 bln (31/12/2002). This overvalue has been calculated on the basis of an assumed total property value of EUR 740 bln (average property price of 206,000 (in 2002) times total property stock of 6,8 mln (31/12/2002) times owner occupancy rate for 2002 of circa 53%).

Characteristics of Dutch Mortgages

The most common mortgage types in the Netherlands are annuity, linear, savings, life and investment mortgages. Under the last two types of mortgages no principal is repaid during the term of the contract. Instead, the Borrower makes payments in a saving account, endowment insurance or investment fund. Upon maturity the loan is repaid with the money in the savings account, the insurance contract or the investment fund respectively.

The Netherlands allow full deduction of mortgage interest payments for income tax. Denmark and Greece are the only other European countries that have a similar fiscal regime. Condition to deductibility of interest in the Netherlands are owner occupancy of the property. In addition to this, the period for allowed deductibility is restricted to a term of 30 years.

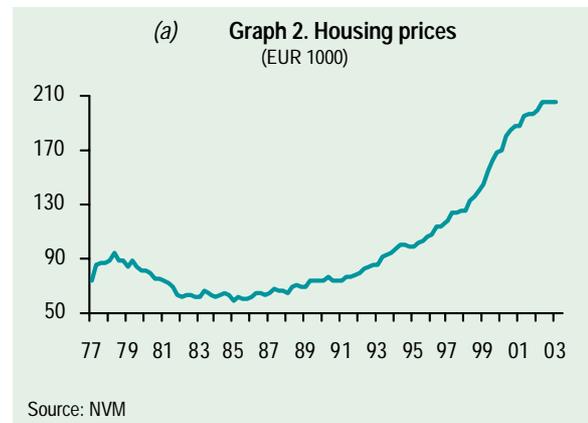

A proportion of the residential mortgage loans has the benefit of a life insurance policy or a savings policy. The government encourages this method of redemption by exempting from tax the capital sum received under the policy, up to a certain amount (plus annual indexation), provided the term of insurance is at least 15 or 20 years. In addition, the insurance policies are exempted from wealth tax.

The combination of an attractive fiscal regime, generally long periods of fixed interest rates and attractive repayment arrangements lead to advances of up to 125 per cent. of the foreclosure value. (the foreclosure value amounts to approximately 85 per cent. of the market value of properties in the Netherlands).

Prepayment rates in the Netherlands are relatively low, mainly due to prepayment penalties that are incorporated in the mortgage contracts. Penalties are generally calculated as the net present value of the

interest loss to the lender upon prepayment. As other reason for low prepayment rates can be mentioned the relative small number of relocations in the Netherlands for work-related reasons due to the small size of the country.

Interest rates on mortgage loans have been stabilising in the last year. Please find below a graph on the development of mortgage interest rates on newly issued mortgages over a period of 28 years in the Netherlands.

Property Prices

After a housing recession during 1978-1982 house prices in The Netherlands have steadily increased. Graph 2 above, shows the yearly house price developments for the last 15 years. These percentages are derived from the Dutch Association of Real Estate Agencies (“*Nederlandse Vereniging van Makelaars*” ‘NVM’), which covers approximately 65 per cent. of property sales in The Netherlands.

Price movements of properties in the Netherlands stem from developments on both the demand and supply side of the market. In addition, the change in the average quality of the housing stock is also a factor for house price movements.

Demand

Several factors contribute to housing demand:

1. The (expected) level of borrowing costs and the (changes in) tightness of mortgage lending standards have been very decisive factors for housing demand. In the second half of the nineties Dutch mortgage rate have decreased and have since stabilised.
2. The trend in housing rents as compared to mortgage debt servicing costs is relevant. In the Netherlands, the rise in rents accelerated in the early nineties as a result of government policy directed at making the subsidised rental sector cost-effective. This has increased the attractiveness of owner-occupied properties.
3. Demographic trends such as the composition of households and population growth, have influenced the demand for housing. In the Netherlands, the number of single-person households has doubled in the past 25 years.
4. Finally, the economic climate can be a factor of influence in housing demand. Dutch GDP growth was low during the last two years and a moderate growth of only 0.7% is expected for 2003. Low and stable interest rates are expected to (partly) outweigh the negative influence from the currently less favorable economic climate.

Supply

On the supply side, the following factors are of influence:

1. Building costs – including labour and materials – and house and land prices are the main determinants. The fiercer the rise in house prices relative to the increase in building costs and land prices, the more profitable the construction of new housing units will be for contracting firms.
2. The availability of land for housing development is highly important. In the Netherlands, the VINEX-memorandum and Vinac (the actualisation of Vinex for the period 2006 until 2010) – published by the Ministry for Housing, Spatial Planning and Environment – reflects still the basis of

the government policy in respect of housing construction in the Netherlands. In Vinex (and in similar policy papers for other locations) the number of houses to be built and their location is determined. According to 'Nota Wonen' of the Ministry for Housing, Spatial Planning and Environment (in line with Vinex) the net expansion of housing is to be 65,000 per annum until 2010. This has proven to be too ambitious in recent years. In the second half of the nineties, a backlog of 45,000 dwelling had already built up.

3. Dutch government supports the sale of rental houses to occupants. According to plans, ownership of over 25,000 houses a year should be transferred to the public. The government even strives for a sale of 700,000 before 2010 in order to attain owner occupancy target level of 65%. Currently 15,000 – 20,000 rental dwellings are sold per year.
4. The last determining factor of housing supply in the Netherlands is demolition. The number of demolished properties is fairly constant in time.

According to the research "need for housing" ("woningbehoefte onderzoek") a housing shortage of 96,000 existed in the Netherlands in 1998 and is expected to have increased slightly since then. A shortage in the housing stock is assumed to be a robust contributor to a steady property price development. The table "dwellings per 1000 inhabitants" provides an overview of the number of dwellings available for a number of European countries.

Mortgage Loan market

In the period 2000-2002, considerably less newly issued mortgages have been registered. This decrease results mainly from fewer refinancings of existing mortgage loans due to lower interest rates and smaller property price rises (hence less overvalue). In addition, economic growth has slowed substantially. Due to the higher housing price, however, the value of new mortgages has continued to rise in almost all years.

The Netherlands find themselves in an average position on both records. These tables illustrate the limited risk position of mortgage loans to individuals in the Netherlands.

Given the moderate position with respect to the total mortgage debt and the average housing expenditures, Dutch mortgages have performed strongly over a very long period of time. Even in 1979-1982 recession losses stayed below 0.25%. As a proxy for losses in the entire Dutch mortgage market, a table is presented on claims reported at WEW (this is the Dutch governmental entity that guarantees mortgages, see section municipality/NHG guarantee programme).

A number of factors can be mentioned that contribute to the strong performance of Dutch mortgages:

1. Very low defaults due to low unemployment rates, a strong cultural aversion to default and a supportive social security regime;
2. Legal ability of lenders in foreclosure to access borrowers' wages or seize their other assets;
3. Quality of mortgage servicing;
4. Relatively conservative underwriting criteria including checking comprehensive credit bureau data (BKR).

Market players

In the Dutch mortgage market different parties are at play in the granting of residential mortgage loans to individuals. The major types of mortgage lenders are: main commercial banks, insurance companies, building societies, pension funds, mortgage banks and other institutions. The market shares of the different originators are described below:

Group strategy

Delta Lloyd

The activities of Delta Lloyd focus on integral services in the field of risk protection, income security and asset accumulation. Being a customer and service oriented financial services provider, Delta Lloyd wants to offer every possible financial solution (all finance) through the distribution channel chosen by the customer ("multi-channel" approach).

In setting its strategy, the group anticipates developments such as the Dutch government providing gradually less support for individuals (for instance in the field of health insurance and pensions). Another development is that consumers opt for standard products based on price/quality on the one hand and at the other hand for advice-sensitive long term flexible products taking into account the client's overall long term finance needs, i.e. products that fit the client's age and life cycle. Hence, the group's products are ranging from simple savings products to tailor-made integral financial solutions.

Delta Lloyd will develop and intensify its strategic market approach through existing indirect (intermediaries or insurance brokers) and direct distribution channels, enabling a stronger positioning of the Delta Lloyd and Ohra brands. In 2002, the bancassurance joint venture with ABN AMRO Verzekeringen added a nation-wide bank distribution channel to Delta Lloyd's Dutch distribution network. The group's long-term financial targets are an increase of premium income and profits of 15 per cent p.a. and a minimum ROE of 13 per cent. p.a.

Mortgage Origination

Delta Lloyd's share of the Dutch residential mortgage market was 1.3 per cent. at year end 2000, 1.5 per cent at the year end 2001 and 1.6 at the year end 2002. (target 1.368 bln) in 2002 compared to EUR 1.286 bln (target 1.247 bln) in 2001 and EUR 1.041 bln. in 2000. Delta Lloyd's origination volume grew 12 per cent. last year, due to deals with large business chains, and improved services,

The above graph includes originations of all Delta Lloyd group companies including Delta Lloyd Life. The latter accounts for approximately 90 per cent. of total volume.

DESCRIPTION OF MORTGAGE LOANS

The Mortgage Receivables to be sold and assigned to the Issuer on the Closing Date are any and all rights (whether actual or contingent) of the relevant Seller or, as the case may be, the relevant Sellers against any Borrower under or in connection with any Mortgage Loans selected by agreement between the Sellers and the Issuer. Up to the Quarterly Payment Date immediately preceding the first Optional Redemption Date, on a quarterly basis the Issuer shall apply any proceeds received from the relevant Seller or, as the case may be, the relevant Sellers in connection with a repurchase of any Mortgage Receivables relating to a Mortgage Loan under which the relevant Seller or, as the case may be, the relevant Sellers desires to grant a Further Advance or a Further Construction Loan, to purchase and accept the assignment of Substitute Mortgage Receivables from the relevant Seller or, as the case may be, the relevant Sellers provided that certain conditions are met (see further *Mortgage Receivables Purchase Agreement* below).

The Mortgage Loans are loans secured by a mortgage right, evidenced by notarial mortgage deeds (“*notariële akten van hypotheekstelling*”) entered into by the relevant Seller or, as the case may be, the relevant Sellers and the relevant Borrowers. The Mortgage Receivables sold to the Issuer which were originated by the Sellers prior to 1 January 1992 will be secured by mortgage rights which secure the initial Mortgage Loan, increased with interest, reimbursements and costs. The Mortgage Receivables sold to the Issuer which were originated by the Sellers prior to 1 March 1999 will be secured by mortgage rights which secure the initial Mortgage Loan and all other amounts which the Borrower may be or become due to the relevant Seller or, as the case may be, the relevant Sellers up to the amount of his repayments or prepayments on the initial Mortgage Loan. The Mortgage Receivables sold to the Issuer which were originated following 1 March 1999 will be secured by mortgage rights which secure not only the initial Mortgage Loan but also any amounts which the Borrower may be or become due to the relevant Seller or, as the case may be, the relevant Sellers under further loans and/or credits up to a maximum level. See paragraph *Mortgage Rights* above.

The Mortgage Loans have been selected according to the criteria list set forth in the Mortgage Receivables Purchase Agreement and are selected in accordance with such agreement, on or before the Closing Date (see *Mortgage Receivables Purchase Agreement*). All of the Mortgage Loans were originated by the Sellers between 1975 and February 2003. The interest rate on each Mortgage Loan has been fixed for an initial time period as of the date of the origination of the relevant Mortgage Loan. After this initial period, the interest for the next interest period will be determined by the relevant Seller or, as the case may be, the relevant Sellers in accordance with the then current market rates of interest or, if the Borrower so desires, in accordance with alternatives made available to the Borrower by the relevant Seller or, as the case may be, the relevant Sellers.

For a description of the representations and warranties given by the Sellers reference is made to *Mortgage Receivables Purchase Agreement* below.

Mortgaged Assets

The mortgage rights securing the Mortgage Loans are vested on (i) a real property (“*onroerende zaak*”), (ii) an apartment right (“*appartementsrecht*”) or (iii) a long lease (“*erfpacht*”).

For over a century different municipalities and other public bodies in the Netherlands have used long lease (“*erfpacht*”) as a system to issue land without giving away the ownership to it. There are three types of long lease: temporary (“*tijdelijk*”), ongoing (“*voortdurend*”) and perpetual (“*eeuwigdurend*”). A long lease is a right in rem (“*zakelijk recht*”) which entitles the leaseholder (“*erfpachter*”) to hold and use a real property (“*onroerende zaak*”) owned by another party, usually a municipality. The long lease can be transferred by the leaseholder without permission from the landowner being required, unless the lease conditions provide otherwise and it passes to the heirs of the leaseholder in case of his death. Usually a remuneration (“*canon*”) will be due for the long lease.

Mortgage Types

Annuity Mortgage (“*Annuitaire lening*”)

These mortgages offer a constant total monthly payment, made up of an initially high and decreasing interest portion and an initially low and increasing principal portion. Only the proportions of interest and principal vary every month. The advantage is that the monthly payments are relatively low and constant from the very beginning. Annuity mortgages are offered with interest rates established by reference to the standard Delta Lloyd interest-rate. The loans can have a maximum maturity of 30 years.

Linear Mortgage (“*Lineaire hypotheek*”)

This is the oldest form of a mortgage. They offer a constant monthly payment in principal, which makes the overall amount decrease over time. The interest payment is recalculated every time on the declining outstanding balance. The total monthly payments, partly interest and partly principal, will therefore decrease over time but the initial monthly payments are relatively high. Linear mortgages are offered with interest rates established by reference to the standard Delta Lloyd interest-rate. The interest rate can be fixed either for an initial period, after which a new rate and period are selected, or also can be fixed for the entire length of the loan. The loans can have a maximum maturity of 30 years.

Interest Only Mortgages (“*Aflossingsvrije Hypotheek*”)

These mortgages do not amortise principal and provide for a bullet payment at the end, mostly when the house is eventually sold. The borrowers pay only interest. Due to the higher risk of bullet principal repayment, these mortgages have a maximum loan-to-foreclosure value of 75 per cent.

Borrowers often take one mortgage deed for a loan consisting of a combination of product types. A common combination is for instance an interest-only mortgage for the first 75 per cent. LTV with a savings mortgage for the remainder.

Savings Mortgages (“*Spaarhypotheeken*”)

This type of mortgage combines a loan with a capital/life insurance. The payout at the end of the contract (or earlier at the death of the borrower) always corresponds exactly to the amount of the mortgage loan. The constant monthly payments consist of interest on the principal and a savings/risk premium for the capital/life insurance (“*spaar/risico-premie*”). If the rates have gone up at the end of the chosen fixed-rate period, the interest charge on the loan will increase but the savings premium on the life insurance will decrease and vice versa. The reinvestment rate on accumulated mortgage principal is guaranteed at the mortgage rate.

Unit Linked Mortgage (“*Meerkeuzeplan*”)

This is a loan on which no principal repayment is made during the life of the contract. Next to this loan, the borrower signs a life insurance policy providing for an amount if the beneficiary is still alive at the end of the policy or if the beneficiary dies before the end of the policy. The final payout will be determined by the return obtained on the funds chosen by the borrower and the return obtained on the amounts invested in Delta Lloyd investment funds. The final payout will therefore not necessarily be equal to the outstanding balance on the loan.

Universal Life Mortgage (“*Delta Life Hypotheek*”)/“*Financieel Vrijheidsplan*”)

This is a loan on which no principal repayment is made, together with a very flexible life insurance policy, effectively an improvement of the Unit Linked policy. This is the most popular amongst the Delta Lloyd mortgage product range. The monthly premiums on the insurance policy are being invested in Delta Lloyd investment funds. The final payout will be determined by the return obtained on the funds chosen by the borrower and the return obtained on the amounts invested in Delta Lloyd investment funds. The final payout will therefore not necessarily be equal to the outstanding balance on the loan.

Traditional life insurance mortgages and Life/external insurance mortgage (“*Hypotheek o.b.v. traditioneel gemengde verzekering*”)

These mortgages provide for a loan with a payment of a mortgage interest, as well as for a separate insurance product. The reinvestment rate on the accumulated premium is not guaranteed, although insurance companies are required to guarantee a minimum 3 per cent. rate. MUNICIPALITY/NHG GUARANTEE PROGRAMME

Municipality Guarantee

In 1960, the Netherlands government introduced the ‘municipal government participation’, an open ended scheme in which the municipalities guaranteed, according to a set of defined criteria, residential mortgage loans made by authorized lenders to eligible borrowers to purchase a primary family residence (each a ‘**Municipality Guarantee**’). The municipalities and the State shared the risk on a 50/50 basis. If a municipality was unable to meet its obligations under the Municipality Guarantee, the State would make an interest free loan to cover its obligations. The aim was to promote house ownership among the lower income groups. The Municipality Guarantee covers the outstanding principal, accrued unpaid interest and disposal cost. To the extent that the mortgage loan is partially redeemed either through scheduled payments or prepayments, the Guarantee is reduced accordingly. Further advances made under the mortgage loan are not covered by the Municipality Guarantee to the extent that the outstanding amount of the mortgage loan is greater than the original amount less scheduled repayments.

NHG Guarantee

Since 1 January 1995 a central, privatised entity “*Stichting Waarborgfonds Eigen Woningen*” (‘**WEW**’) is responsible for the administration and granting of the “*Nationale Hypotheek Garantie*” (‘**NHG Guarantee**’), under a set of uniform rules. The NHG Guarantee covers the outstanding principal, accrued unpaid interest and disposal costs. To the extent that the mortgage loan is partially redeemed either through scheduled repayments or prepayments, the NHG Guarantee is reduced accordingly. In addition, irrespective of scheduled repayments or prepayments made on the mortgage loans, the NHG Guarantee is reduced on a monthly basis with an amount which equals the amount of monthly repayments plus interest as if the mortgage loan were to be repaid on a thirty year annuity basis. Further advances or re-drawings of prepaid amounts made under the mortgage loan are not covered by the NHG Guarantee to the extent that the outstanding amount of the mortgage loan is greater than the original amount less scheduled principal payments. Also, amounts paid as savings or investment premium under savings insurance policies or life insurance policies, respectively, are deducted from the amount outstanding on such loans for purposes of the calculation of the amount guaranteed under the NHG.

Transition from Municipality to NHG Guarantee

The Dutch State has effectively transferred its reimbursement obligations with respect to Municipality Guarantees to the WEW. All municipalities have transferred their obligations under guarantees issued pursuant to the previous State terms and conditions to the WEW.

The transfer of obligations by the State and the municipalities to the WEW is set forth, respectively, in a ‘buy-off’ agreement (“*afkoopovereenkomst*”) dated 8 December 1994 between the State and the WEW and in standard buy-off agreements entered into between each participating municipality and the WEW. The buy-off agreements basically provide for the WEW to assume all payment obligations of the State and the municipalities under guarantees issued (but not enforced) prior to 1 January 1995 against payment by the State and the participating municipalities of an up-front lump sum (and, if necessary, additional payments) to the WEW.

Financing of the WEW

The WEW finances itself, *inter alia*, by a one-off charge to the borrower of 0.30 per cent. of the mortgage loan. Besides this, the NHG scheme provides for liquidity support to the WEW from the State of the Netherlands and the participating municipalities. Should the WEW not be able to meet its obligations under guarantees issued, the State will provide subordinated interest free loans to the WEW of up to 50 per cent. of the difference between the WEW’s own funds and a pre-determined average loss level. Municipalities participating in the NHG Scheme will fund to the WEW, by means of subordinated interest free loans, the other 50 per cent. of the difference. Both the keep well agreement between the State and the WEW and the keep well agreements between the municipalities and the WEW contain general ‘keep well’ undertakings of the State and the municipalities to enable the WEW at all times (including in the event of bankruptcy, suspension of payments or liquidation of the WEW) to meet its obligations under guarantees issued.

Terms and Conditions

Municipality Guarantees

The State established the terms and conditions for the Municipality Guarantees. These terms and conditions have been amended from time to time over the years. As of October 1992, to qualify for a Municipality Guarantee under the relevant State terms and conditions, *inter alia*, the following conditions had to be met: (1) a municipality guarantee must be applied for the purchase of a property; (2) the applicant for whose benefit the guarantee is given must be the owner-occupier; (3) the purchase price (as defined in the relevant terms and conditions) must not exceed NLG 250,000 (approximately EUR 113,445); (4) the relevant loan granted for the purchase of the property must have a minimum maturity of five years and a maximum maturity of 30 years; (5) repayments have to be on a monthly basis and can be “annuity” or “linear”; (6) the relevant mortgage loan must be secured by a first priority mortgage right securing only the mortgage loan on the mortgaged property, in favour of the lender; (7) the guarantee covers the lender’s claims under the mortgage loan as of the date of sale of the Mortgaged Property by the lender enforcing the mortgage; (8) if the mortgage right is combined with a life insurance policy, the rights under the policy must be pledged to the lender; (9) the lender must ensure that the property is adequately insured (by the borrower) against fire damage during the term of the loan. In addition, once the guarantee has been issued, the lender has certain ongoing obligations under the Municipality Guarantee *vis-à-vis* the municipality; (1) without the consent of the municipality the lender shall not agree to a suspension of payment under the loan; (2) the lender must inform the municipality on a yearly basis as to the amount outstanding under the loan; (3) if and when the borrower is in default of the borrower under the loan, the lender must inform the municipality accordingly; (4) if the default of the borrower under the loan is continuing, the lender may not sell the mortgaged property, except with the consent of the municipality; (5) the lender may not claim under the guarantee, unless the mortgage has been enforced and the property has been sold.

NHG Guarantees

Under the NHG scheme, the lender is responsible for ensuring that the guarantee application meets the NHG terms and conditions. If the application qualifies, various reports are produced that are used in the processing of the application, including the form that will eventually be signed by the relevant Seller and forwarded to the NHG to register the mortgage and establish the guarantee.

The specific terms and conditions for the granting of NHG Guarantees, such as eligible income, purchasing or building costs etc, are set forth in published documents.

The NHG has specific rules for the level of credit risk that will be accepted. The credit worthiness of the applicant must be verified with the “Bureau Krediet Registratie” (‘BKR’), a central credit agency used by all financial institutions in the Netherlands, which registers the current and recent (for the previous five years) credit record (if any) of borrowers in the Netherlands.

To qualify for a NHG Guarantee various conditions relating to valuation of the property must be met. In addition, the mortgage loan must be secured by a first priority mortgage right and the borrower is required to take out insurance in respect of the mortgaged property against risk of fire, flood and other accidental damage for the full restitution value thereof. The borrower is also required to take out life insurance, the rights under the policy being pledged to the lender, for the term of the loan if the loan is more than 50 per cent. of the free market value of the property. The mortgage conditions should include certain provisions, among which the provision that any proceeds of foreclosure on the mortgage right and the right of pledge shall be applied firstly towards repayment of the loan guaranteed under the NHG.

The NHG Guarantee can be issued up to a maximum of EUR 225,000 (as of 1 January 2003).

Claiming under the Municipality Guarantee

The claim must be made under the same conditions as for the NHG claim (see below). There are three possibilities for claiming payment for a defaulted mortgage loan covered by a Municipality Guarantee: (1) the municipality has joined the NHG arrangement and has transferred its obligations to the NHG, (2) as for (1) but the municipality has retained its old obligations, or (3) the municipality has not joined the NHG arrangement:

- (1) The claim is made to the municipality that issued the guarantee, which checks the validity of the claim and forwards it to the WEW which makes the payment to the lender;
- (2) the claim is made to the issuing municipality which checks the claim and makes the payment to the lender (NHG will reimburse the municipality for 50 per cent. of the claim);
- (3) the claim is made to the issuing municipality which checks the claim and makes the payments to the lender.

In all cases the full file of relevant information must be submitted with the claim within the required time. Payment should be made within two months. If not, interest is payable for the delayed payment period.

In its letter dated 26 October 2000, the WEW has confirmed that the starting point for its policies is that each Financial Institution with which it has a guarantee arrangement acts in good faith (“*te goeder trouw*”) and that breaches of the terms and conditions (the “*Voorwaarden en Normen*”), which do not have a material influence on the occurrence and the size of the loss, lead to payment under the claims. The WEW also confirmed that if a Financial Institution should transfer to a third party its rights under mortgage loans which have the benefit of a Guarantee and which are registered with the WEW in accordance with the provisions of the *Voorwaarden en Normen*, pursuant to a sale by that Financial Institution of a mortgage loan portfolio to which the mortgage loans in question belong or in connection with a financial transaction, such third party transferee will become the beneficiary of the Guarantee as provided for in Article 6:142 sub-section 1 of the Dutch Civil Code.

Claiming under the NHG Guarantees

When the borrower is in arrears with payments under the mortgage loan for a period of 7 monthly installments, the WEW may approach the lender and/or the borrower to attempt to solve the problem and make the borrower aware of the consequences. If an agreement cannot be reached, the WEW reviews the situation with the lender to endeavor to generate the highest possible proceeds from the property. The situation is reviewed to see whether a private sale of the property, rather than a public auction, would generate proceeds sufficient to cover the outstanding loan. Permission of the WEW is required in case of a private sale.

Within two months of the private or forced sale of the property, the lender must make a formal request to the WEW for payment, using standard forms, which request must include all of the necessary documents relating to the original loan and the NHG Guarantee. After receipt of the claim and all the supporting details, NHG must make payment within two months. If the payment is late, provided the request is valid, NHG must pay interest for the late payment period.

In the event that a borrower fails to meet its obligation to repay the mortgage loan and no or no full payment is made to the lender under the NHG Guarantee by the WEW because of the lender’s culpable negligence, the lender must act *vis-à-vis* the borrower as if the WEW were still guaranteeing the repayment of the Mortgage Loan during the remainder of the term of the Mortgage Loan. In addition, the lender is not entitled to recover any amounts due under the mortgage loan from the borrower in such case. This is only different if the borrower did not act in good faith with respect to his inability to repay the mortgage loan and has failed to render his full cooperation in trying to have the mortgage loan repaid to the lender to the extent possible.

MORTGAGE LOAN UNDERWRITING AND MORTGAGE SERVICES

Introduction

The Mortgage Loans are originated by the relevant Seller or, as the case may be, the relevant Sellers. Mortgage Loans are distributed through the channel of intermediaries including insurance brokers, banks, real estate agents and specialized mortgage brokers.

Delta Lloyd has entered into an agreement with STATER Nederland B.V. ('**STATER**') a leading provider of mortgage payment transaction and ancillary service the Mortgage Services'. STATER is established on 1 January 1997 and is devoted to providing the Mortgage Services for owners of residential mortgage loan portfolios.

Delta Lloyd's mortgage activities comprise all commercial activities leading to the grant of mortgage loans and the technical administrative control of the portfolio. Payment transactions between the lender and the borrower relating to mortgages, are undertaken by STATER.

Origination

The Mortgage Services that STATER provides include:

- access to an origination system, including automated underwriting, incorporating the specific Delta Lloyd rules for the underwriting process;
- after a Mortgage Loan application has been accepted by Delta Lloyd, STATER takes care of the outgoing payment. This can be in the form of a one time payment through the notary. In case the Mortgage Loan is required for a construction or (partial) reconstruction of the property, the concerning amount is held in a building deposit at Delta Lloyd's account. STATER verifies, based on instructions set by Delta Lloyd, if the payment requests by the borrower are in line with the construction plan and only pays out upon proper invoices being provided;
- during the lifetime of the Mortgage Loans STATER carries out the Mortgage Services in the name of Delta Lloyd.

The whole process is paperless and is conducted on a computer system developed by STATER, the *STATER Hypotheek Systeem* ("SHS"), specifically to allow underwriting rules and controls to be encoded in an automated underwriting system, control the function of the Mortgage Services and provide high-quality financial and performance information on (securitized) mortgage portfolios.

Direct contact with clients, however, is exclusively maintained by Delta Lloyd.

New mortgage loans are accepted on the basis of a fixed underwriting protocol. The application is sent to Delta Lloyd by mail, fax or HDN ("*Hypotheken Data Netwerk*"). The Delta Lloyd underwriter then enters the application data in the SHS, which inputs the conditions and assesses the application automatically, including a credit check with BKR ("*Bureau Krediet Registratie*"). If the system approves, then a conditional offer is sent out, subject to verification of the application input such as salary, employment and property details.

Description of the Origination department

The principal items in the underwriting protocol are:

(a) Maximum amounts

If the loan is guaranteed by the NHG, the maximum amount of the mortgage loan which will be granted is Euro 225,000 for the year 2003. Higher amounts are only possible without NHG and to be approved by the relevant credit approving authorities within Delta Lloyd. The minimum amount at Delta Lloyd is Euro 10,000.

(b) Creditworthiness and Debt-to-income ratio ("*Woonquote*")

The process of verifying the creditworthiness is set up to determine whether the prospective borrower has sufficient monthly income available to meet his payments on the requested mortgage loan as well as to support other financial obligations and monthly living expenses. A check on the income is conducted by requesting a recent employer's declaration. In general, the gross debt service-to-gross income ratio increases with the borrower's income with the percentage ranging between 31 per cent. for a salary up to Euro 27,000 and 39 per cent. with a salary above Euro 65,001.

(c) Collateral

With each application, the potential borrower has to send an original appraisal called valuation report (“*taxatie rapport*”), which is drawn up by a sworn-in appraiser called “*taxateur*” or an assessment by the Netherlands tax authorities on the basis of the Act on Valuation of Real Property (“*Wet Waardering Onroerende Zaken*”). The latter is only allowed if the LTV is below 60 per cent. on the basis of such assessment. For new builds no valuation is required if the property is built by professional builders, unless the Relevant Mortgage Loan to be granted exceeds 107 per cent. of the purchase and construction costs of the property involved.

(d) Foreclosure Value

The appraised Foreclosure Value (“*Executiewaarde*”) is approximately 85 per cent. of the market value (“*vrije verkoopwaarde*”) at the time of loan origination. Mortgage loans that do not have the benefit of a Municipality Guarantee or an NHG Guarantee are granted up to a maximum of 125 per cent. of the foreclosure value (only mortgages up to 126 per cent. of the foreclosure value are included in the portfolio).

(e) Other underwriting conditions

Apart from the principal underwriting factors already mentioned, the following rules apply: (i) mortgage loans are granted only to individuals, (ii) joint and several liability for the mortgage receivable (all owners are joint and several debtors) and (iii) mortgage loans are only granted on the basis of owner occupancy (no investment mortgages).

Mortgage Services

Payment collections (“inningen”)

At origination, the borrower always agrees with Delta Lloyd that monthly payments will be automatically withdrawn from his bank account by direct debit. Some 96 per cent. of all Delta Lloyd Life’s borrowers pay this way. Some pay by money transfer or checks. Direct debit will not be successful if the balance of the borrowers’ account is not sufficient to cover the full amount of the scheduled monthly payment. If the balance is insufficient for the full drawing on the payment date, then, depending on the borrower’s bank, there will be a few more attempts to withdraw the full amount of the scheduled payment.

Payments are due on the first day of each month (“*vervaldag*”). The direct debit has to take place at the latest one day before the last business day of the previous month but, because the borrower has the contractual obligation to make sure that the lender is receiving his payment on time, STATER will usually withdraw the due amount a few days before that in order to make sure that the funds are in the lenders possession on the 1st.

STATER, on behalf of Delta Lloyd, draws the monthly payments from the borrower’s bank account and is obliged to transfer these payments directly onto Delta Lloyd’s accounts. The STATER computer system automatically collects the payments, and the related information is monitored daily by personnel in the arrears department of STATER.

Arrears

At the end of each month, the system detects and keeps track of arrears. Reminder letters are automatically generated by the system and sent out to the borrower. If the borrower misses a payment, a “letter of arrears” is automatically sent during the 2nd to 3rd week in the month following the missing payment date. The arrears on the reminder letter are as up-to-date as possible. A reminder letter is drawn up for each loan. The letter also includes a specification of the penalty interest charged. If the borrower has not been placed on the “active treatment list” (see below) each following month a new letter will be sent in which the wording and contents become increasingly more severe. The fourth and last reminder letter notifies the borrower that measures for collection will be taken including the call of the loan if the arrears are not paid immediately.

Depending on the amount of arrears, a borrower will be given an active treatment status or note; the borrower will only be placed on this list if the total amount of arrears is greater than or equal to Euro 1,500. Also, every borrower with more than two missing payments is placed on this list.

Defaults

The loans with active treatment status are handed over by STATER’s debtors department to the special servicing team (“*Team Bijzonder Beheer*”) at Delta Lloyd. The members of this team have an average of 15 years’ experience in the mortgage business and it currently employs 8 people. In other words, Delta Lloyd

performs the servicing with respect to defaulted loans that require direct contact with the relevant Borrowers. Delta Lloyd will assess whether a solution to the payment problem can be reached. This can range from rescheduling the arrears to a voluntary sale of the property by the borrower.

If no solution can be found, the foreclosure process will start.

From decision to foreclose to actually foreclosure and receive the foreclosure proceeds has generally not taken more than 3 to 4 months. In total the process from first arrears to receiving foreclosure proceeds may take up to 10 months. For loans with a high LTV Delta Lloyd uses a shorter time frame. Delta Lloyd continues to exert pressure on the Borrower for any losses that remain after foreclosure, ensuring that all obligations are met to the fullest possible extent.

Foreclosure

When applying for a foreclosure, Delta Lloyd sends the public notary a copy of the letter in which the loan is being called (including amount of the claim, general terms and conditions of Delta Lloyd and the letter sent to the client). An average foreclosure, i.e. from the moment of calling the foreclosure until the transfer of the residence takes 3 to 4 months. A foreclosure requires consent of the President of the court, which sometimes may delay the whole process.

STATER will accept this appointment and will commit itself, in favour of the Issuer, to carry out the activities subject to and on the terms provided in the Issuer Services Agreement. The Issuer has consented to the appointment of STATER as sub-agent.

SUB-PARTICIPATION AGREEMENT

Under the Sub-Participation Agreement the Issuer will grant to the Insurance Company a sub-participation in the Savings Mortgage Receivables.

Participation

In the Sub-Participation Agreement the Insurance Company will undertake to pay:

- (i) at the Closing Date or, in case of purchase and assignment of substitute savings mortgage receivables (the '**Substitute Savings Mortgage Receivables**') or in case of a switch from any type of Mortgage Loan into a Savings Mortgage Loan, the relevant Mortgage Payment Date, to the Issuer the sum of the savings premia received by Delta Lloyd Life with accrued interest up to the first day of the month of the Closing Date or the relevant Mortgage Payment Date (the '**Initial Participation**') in relation to each of the Savings Mortgage Receivables;
- (ii) on each Mortgage Payment Date an amount equal to the amount received by the Insurance Company as Savings Premium during the Mortgage Calculation Period then ended in respect of the relevant Savings Insurance Policies, provided that in respect of each relevant Savings Mortgage Receivable no amounts will be paid to the extent that, as a result, thereof the Participation in such relevant Savings Mortgage Receivable would exceed the outstanding principal amount of the relevant Savings Mortgage Receivable.

As a consequence of such payments the Insurance Company will acquire a participation (the '**Participation**') in each of the relevant Savings Mortgage Receivables, which is equal to the Initial Participation in respect of the relevant Savings Mortgage Receivables increased during each Mortgage Calculation Period on the basis of the following formula (the '**Monthly Participation Increase**')

$\frac{(P/H \times R) + S}{12}$, whereby

P = the Participation on the first day of the relevant Mortgage Calculation Period in the Savings Mortgage Receivable;

S = the amount received by the Issuer from the Insurance Company in such Mortgage Calculation Period in respect of the relevant Savings Mortgage Receivable pursuant to the Sub-Participation Agreement;

H = the principal sum outstanding on the Savings Mortgage Receivable on the first day of the relevant Mortgage Calculation Period;

R = the amount of interest, due by the Borrower on the Savings Mortgage Receivable and actually received by the Issuer in such Mortgage Calculation Period.

In consideration for the undertaking of the Insurance Company described above, the Issuer will undertake to pay to the Insurance Company on each Mortgage Payment Date an amount equal to the Participation in each of the Savings Mortgage Receivables in respect of which amounts have been received during the relevant Mortgage Calculation Period or, in the case of the first Mortgage Payment Date, during the period which commences on the Closing Date and ends on the last day of the Mortgage Calculation Period immediately preceding such first Mortgage Payment Date (i) by means of repayment and prepayment under the relevant Savings Mortgage Receivables from any person, whether by set-off or otherwise, but, for the avoidance of doubt, excluding any prepayment penalties and interest penalties, if any, and, furthermore, excluding amounts paid as partial prepayments on the Savings Mortgage Receivable, (ii) in connection with a repurchase of Savings Mortgage Receivables pursuant to the Mortgage Receivables Purchase Agreement to the extent such amounts relate to principal, (iii) in connection with a sale of Savings Mortgage Receivables pursuant to the Trust Deed and to the extent such amounts relate to principal and (iv) as Net Proceeds on any Savings Mortgage Receivables to the extent such amounts relate to principal (the '**Participation Redemption Available Amount**').

Reduction of Participation

If:

- (i) a Borrower invokes a defence, including but not limited to a right of set-off or counterclaim against any person in respect of the relevant Savings Mortgage Receivables based upon a default in the performance, whether in whole or in part and for any reason, by the Insurance Company of its obligations under the Savings Insurance Policy; or
- (ii) any of the Sellers fails to pay any amount due by it to the Issuer pursuant to the Mortgage Receivables Purchase Agreement in respect of a Savings Mortgage Receivable;

and, as a consequence thereof, the Issuer will not have received any amount outstanding prior to such event in respect of such Savings Mortgage Receivable, the Participation of the Insurance Company in respect of such Savings Mortgage Receivable will be reduced by an amount equal to the amount which the Issuer has failed to so receive and the calculation of the Participation Redemption Available Amount shall be adjusted accordingly.

Enforcement Notice

If an Enforcement Notice (as defined in Condition 10) is given by the Security Trustee to the Issuer, then and at any time thereafter the Security Trustee on behalf of the Insurance Company may, and if so directed by the Insurance Company shall, by notice to the Issuer:

- (i) declare that the obligations of the Insurance Company under the Sub-Participation Agreement are terminated;
- (ii) declare the Participation to be immediately due and payable, whereupon it shall become so due and payable, but such payment obligations shall be limited to the Participation Redemption Available Amount received or collected by the Issuer or, in case of enforcement, the Security Trustee under the Savings Mortgage Receivables.

Termination

If one or more of the Savings Mortgage Receivables are (i) repurchased by Delta Lloyd Life or, as the case may be, the relevant Sellers from the Issuer pursuant to the Mortgage Receivables Purchase Agreement or (ii) sold by the Issuer to a third party pursuant to the Trust Deed, the Participation in such Savings Mortgage Receivables will terminate and the Participation Redemption Available Amount in respect of the Savings Mortgage Receivables will be paid by the Issuer to the Insurance Company. If so requested by the Insurance Company, the Issuer will use its best efforts to ensure that the acquiror of the Savings Mortgage Receivables will enter into a Sub-Participation Agreement with the Insurance Company in a form similar to the Sub-Participation Agreement. Furthermore, the Participation envisaged in the Sub-Participation Agreement shall terminate if at the close of business of any Mortgage Payment Date the Insurance Company has received the Participation in respect of the relevant Savings Mortgage Receivable.

DESCRIPTION OF SECURITY

The Notes will be secured by the Deed of Surety to be entered into by the Security Trustee with (i) the Managers (as defined below) as initial Noteholders, (ii) the Directors, (iii) the MPT Provider, (iv) the Defaulted Loan Servicer, (v) the Company Administrator, (vi) the Paying Agent, (vii) the Reference Agent, (viii) the Liquidity Facility Provider, (ix) the Swap Counterparty, (x) the Insurance Company and (xi) the Sellers (the ‘**Secured Parties**’). The Security Trustee will agree in the Deed of Surety to grant a surety (“*borgtocht*”) to the Secured Parties and will undertake to pay, as surety, after the date on which an Enforcement Notice has been received by it (see Condition 10 below) from time to time as soon as reasonably possible and practicable, to the Secured Parties, other than the Insurance Company pursuant to the Sub-Participation Agreement, an amount corresponding to the sum of any amounts due and payable by the Issuer:

- (a) to the Noteholders under the Notes;
- (b) as fees or other remuneration to the Directors under the Management Agreements;
- (c) as fees and expenses to the MPT Provider, the Defaulted Loan Servicer and the Company Administrator under the Issuer Services Agreement;
- (d) as fees and expenses to the Paying Agent and the Reference Agent under the Paying Agency Agreement;
- (e) to the Liquidity Facility Provider under the Liquidity Facility Agreement;
- (f) to the Swap Counterparty under the Swap Agreement; and
- (g) to the Sellers under the Mortgage Receivables Purchase Agreement;

provided that such amount will never exceed the Notes Surety Available Amount which consists of the sum of (a) amounts recovered (“*verhaald*”) by it on (i) the Mortgage Receivables and the other assets pledged under the Trustee Pledge Agreement I and the Trustee Pledge Agreement II, other than the Savings Mortgage Receivables, (ii) on Savings Mortgage Receivables to the extent the amount exceeds the Participation in the relevant Savings Mortgage Receivables; (b) the *pro rata* part of amounts received in connection with the penalty provided in the Mortgage Receivables Purchase Agreement (by reference to the proportion the Participations bear to the aggregate Mortgage Receivables), (c) the amount of any advance having been made available to the Security Trustee under a recourse liquidity facility agreement to the extent the amount so made available will be recovered under (a) above and will not exceed the amount of such advance and (d) the *pro rata* part of amounts received in connection with Clause 9 of the Deed of Surety (by reference to the proportion the Participations bears to the aggregate Mortgage Receivables); less (y) any amounts already paid by the Security Trustee to the Secured Parties (other than the Insurance Company) pursuant to the Deed of Surety and (z) the *pro rata* part of the costs and expenses of the Security Trustee (including, for the avoidance of doubt, any costs of, *inter alia*, Moody’s and Fitch and any legal advisor, auditor or accountant appointed by the Security Trustee) (by reference to the proportion the Participations bear to the aggregate Mortgage Receivables). Any amounts will be paid to the Secured Parties in accordance with and subject to the Priority of Payments upon Enforcement (see *Credit Structure above*).

In addition, in the Deed of Surety the Security Trustee undertakes to pay to the Insurance Company the Participation Surety Available Amount which consists of, *inter alia*, (i) the amounts actually recovered (“*verhaald*”) by it on the Savings Mortgage Receivables, under the Trustee Pledge Agreement I, but only to the extent such amounts do not exceed the Participation in such Savings Mortgage Receivables, (ii) the *pro rata* part of the amounts received in connection with the penalty provided in the Mortgage Receivables Purchase Agreement provided that such amounts relate to the Participation in the Savings Mortgage Receivables; (iii) the amount of any advance having been made available to the Security Trustee under a recourse liquidity facility agreement to the extent the amount so made available will be recovered under (i) above and will not exceed the amount of such advance and (d) amounts received in connection with Clause 9 of the Deed of Surety (by reference to the proportion the Participations bears to the aggregate Mortgage Receivables); less (y) any amounts already paid by the Security Trustee to the Secured Parties (other than the Insurance Company) pursuant to the Deed of Surety and (z) the *pro rata* part of the costs and expenses of the Security Trustee (including, for the avoidance of doubt, any costs of, *inter alia*, Moody’s and Fitch and any legal advisor, auditor or accountant appointed by the Security Trustee) (by reference to the proportion the Participations bear to the aggregate Mortgage Receivables). Any amounts will be paid to the Secured Parties in accordance with and subject to the Priority of Payments upon Enforcement (see *Credit Structure above*), provided that such amounts shall never exceed the amount due and payable by the Issuer under or in connection with the Sub-Participation Agreement to the Insurance Company.

The Sellers shall grant a first ranking right of pledge (“*pandrecht*”) (the ‘**Trustee Pledge Agreement I**’) over the Mortgage Receivables, the Triahome Beneficiary Rights and the Life Beneficiary Rights (see further *Special Considerations* above) to the Security Trustee on the Closing Date and in respect of any Substitute Mortgage Receivables undertakes to grant a first ranking right of pledge on the relevant Substitute Mortgage Receivables and, if applicable, the relevant Triahome Beneficiary Rights and the Life Beneficiary Rights on the relevant Quarterly Payment Date. Security in respect of the Mortgage Receivables will be given by the Sellers since they will have the legal title to the Mortgage Receivables, until notification has been made. After notification to the Borrowers of the assignment by the Sellers to the Issuer of the Mortgage Receivables (which will only be made upon the occurrence of Notification Events, see *Mortgage Receivables Purchase Agreement* above), legal title to the Mortgage Receivables will pass to the Issuer and the Trustee Pledge Agreement I will provide that the Issuer (who shall be a party to such pledge agreement) will be bound by the provisions thereof in such event.

The Trustee Pledge Agreement I will secure all liabilities of the Sellers under the Mortgage Receivables Purchase Agreement, including the obligation to pay a penalty if, for whatever reason, the transfer of legal ownership of Mortgage Receivables to the Issuer is not completed. The penalty will be due to the Issuer or, if a Trustee I Notification Event (as defined in the Trustee I Pledge Agreement) has occurred, to the Security Trustee. The penalty is drafted in such manner that any detrimental effects resulting from the failure to transfer legal ownership of the Mortgage Receivables to the Issuer will, to the extent possible, be eliminated. Any amount due to the Security Trustee will be reduced by any amount paid in respect of the penalty to the Issuer and any amount due to the Issuer in respect of the penalty will be reduced by any amount paid to the Security Trustee.

In addition, the Trustee Pledge Agreement I will be created as security for all liabilities (including, without limitation, recourse claims) of the Issuer to the Security Trustee in connection with the Deed of Surety. If the Security Trustee pursuant to its penalty claims on the Sellers cannot fully recover all amounts required to meet its obligations under the Deed of Surety, it can create a recourse claim under the Deed of Surety against the Issuer by paying further amounts to the Noteholders. The obligations of the Security Trustee in this respect will, therefore, be conditional upon it having funds available to effectuate such payment. For this purpose, the Security Trustee should borrow an amount equal to the amount which it has as at such date collected and which it will be entitled to recover under the Trustee Pledge Agreement I and the Trustee Pledge Agreement II (see below). After having paid the Noteholders using such borrowed funds, the Security Trustee will be entitled to reimbursement in respect of payments made by it under the Deed of Surety. It will therefore be entitled to apply the amounts held by it under the Trustee Pledge Agreement I and the Trustee Pledge Agreement II to pay its recourse claim and use these amounts to repay drawings made under the recourse liquidity facility agreement together with interest thereon and any related costs. In order to further secure the valid creation of the pledges in favour of the Security Trustee, the Issuer will as an separate and independent obligation, by way of parallel debt, undertake to pay the Security Trustee amounts equal to the amounts due by it to the Secured Parties.

The pledge on the Mortgage Receivables and the Life Beneficiary Rights provided in the Trustee Pledge Agreement I will not be notified to the Borrowers except in case of certain Trustee I Notification Events. These Trustee I Notification Events will be similar to the Notification Events defined in the Mortgage Receivables Purchase Agreement. Prior to notification of the pledge to the Borrowers, the pledge on the Mortgage Receivables and the Life Beneficiary Rights will be a ‘silent’ right of pledge (“*stil pandrecht*”) within the meaning of section 3:239 of the Netherlands Civil Code. The pledge on the Triahome Beneficiary Rights will be notified to the Insurance Company and will, therefore, be a disclosed right of pledge (“*openbaar pandrecht*”).

In order to secure the obligation of the Sellers to transfer legal title to the Relevant Mortgage Receivables to the Issuer, the Sellers will grant a second ranking right of pledge (the ‘**Company Pledge Agreement**’) over the Mortgage Receivables, the Triahome Beneficiary Rights and the Life Beneficiary Rights to the Issuer on the Closing Date and in respect of any Substitute Mortgage Receivables undertakes to grant a second ranking right of pledge on the relevant Substitute Mortgage Receivables and, if applicable, the relevant Triahome Beneficiary Rights and the Life Beneficiary Rights on the relevant Quarterly Payment Date. Since a right of pledge can only be vested as security for a monetary claim, this pledge will secure the payment of the penalty by the Sellers, provided in the Mortgage Receivables Purchase Agreement, as described above. This right of pledge on the Mortgage Receivables and the Life Beneficiary Rights will also be a silent pledge as described above and the right of pledge on the Triahome Beneficiary Rights will also be a disclosed right of pledge, as described above.

The Issuer will also vest a right of pledge (the ‘**Trustee Pledge Agreement II**’) in favour of the Security Trustee on the Closing Date. This right of pledge secures any and all liabilities (including, without

limitation, recourse claims) of the Issuer to the Security Trustee resulting from or in connection with the Deed of Surety and will be vested on all rights of the Issuer under or in connection with (i) the Mortgage Receivables Purchase Agreement, (ii) the Issuer Services Agreement, (iii) the Floating Rate GIC, (iv) the Liquidity Facility Agreement, (v) the Swap Agreement, (vi) the Sub-Participation Agreement and (vii) in respect of the Transaction Accounts. This right of pledge will be notified to the relevant obligors and will, therefore be a disclosed right of pledge (“*openbaar pandrecht*”).

The Deed of Surety described above shall serve as security for the benefit of the Secured Parties, including each of the Senior Class A Noteholders, the Mezzanine Class B Noteholders, the Junior Class C Noteholders and the Subordinated Class D Noteholders, but, *inter alia*, amounts owing to the Mezzanine Class B Noteholders will rank in priority of payment after amounts owing to Senior Class A Noteholders and amounts owing to the Junior Class C Noteholders will rank in priority of payment after amounts owing to the Senior Class A Noteholders and the Mezzanine Class B Noteholders and amounts owing to the Subordinated Class D Noteholders will rank in priority of payment after amounts owing to the Senior Class A Noteholders, the Mezzanine Class B Noteholders and the Junior Class C Noteholders (see *Credit Structure* above).

(c) Interest on the Senior Class A1 Notes and the Subordinated Class D Notes up to the first Optional Redemption Date

Interest on the Senior Class A1 Notes and the Subordinated Class D Notes for each Floating Rate Interest Period will accrue at a rate equal to the sum of the Euro Interbank Offered Rate ('Euribor') for three months deposits (or, in respect of the first Floating Rate Interest Period, the rate which represents the linear interpolation of Euribor for 3 and 4 months deposits in euro, rounded, if necessary, to the 5th decimal place with 0.00005, being rounded upwards), plus in respect of the Senior Class A1 Notes up to but excluding the first Optional Redemption Date a margin of 0.25 per cent. per annum and in respect of the Subordinated Class D Notes up to but excluding the first Optional Redemption Date a margin of 1.15 per cent. per annum.

(f) Euribor

For the purpose of Conditions 4(c) and (e) Euribor will be determined as follows:

- (i) The Reference Agent will obtain for each Floating Rate Interest Period the rate equal to the sum of Euribor for three months deposits in euros. The Reference Agent shall use the Euribor rate as determined and published jointly by the European Banking Federation and ACI – The Financial Market Association and which appears for information purposes on the Telerate Page 248 (or, if not available, any other display page on any screen service maintained by any registered information vendor (including, without limitation, the Reuter Monitor Money Rate Service, the Dow Jones Telerate Service and the Bloomberg Service) for the display of the Euribor rate selected by the Reference Agent) as at or about 11.00 a.m. (Central European time) on the day that is two Business Days preceding the first day of each Floating Interest Period (each an '**Interest Determination Date**').

 - (A) request the principal Euro-zone office of each of four major banks in the Euro-zone interbank market (the '**Reference Banks**') to provide a quotation for the rate at which three months Euro deposits are offered by it in the Euro-zone interbank market at approximately 11.00 a.m. (Central European time) on the relevant Interest Determination Date to prime banks in the Euro-zone interbank market in an amount that is representative for a single transaction at that time; and determine the arithmetic mean (rounded, if necessary, to the fifth decimal place with 0.000005 being rounded upwards) of such quotation as is provided; and

- (B) if fewer than two such quotations are provided as requested, the Reference Agent will determine the arithmetic mean (rounded, if necessary to the fifth decimal place with 0.000005 being rounded upwards) of the rates quoted by major banks, of which there shall be at least two in number, in the Euro-zone, selected by the Reference Agent, at approximately 11.00 a.m. (Central European time) on the relevant Interest Determination Date for three months deposits to leading Euro-zone banks in an amount that is representative for a single transaction in that market at that time,

and the Euribor for such Floating Rate Interest Period shall be the rate per annum equal to the Euro interbank offered rate for Euro deposits as determined in accordance with this paragraph (f), provided that if the Reference Agent is unable to determine Euribor in accordance with the above provisions in relation to any Floating Rate Interest Period, Euribor applicable to the relevant Class of Notes during such Floating Rate Interest Period will be Euribor last determined in relation thereto.

(g) Determination of Rates of Interest and Calculation of Interest Amounts

The Reference Agent will, as soon as practicable after 11.00 a.m. (Central European Time) on each Interest Determination Date, determine the Floating Rates of Interest for each relevant Class of Notes and calculate the amount of interest payable on each relevant Class of Notes for the following Floating Rate Interest Period (the ‘Interest Amount’) by applying the relevant Floating Rates of Interest to the Principal Amount Outstanding of each Class of Notes respectively. The determination of the relevant Floating Rates of Interest and each Interest Amount by the Reference Agent shall (in the absence of manifest error) be final and binding on all parties.

(h) Notification of Floating Rates of Interest and Interest Amounts

The Reference Agent will cause the relevant Floating Rates of Interest, the relevant Interest Amounts to be notified to the Issuer, the Security Trustee, the Paying Agent, the Company Administrator and to the holders of such Class of Notes by an advertisement in the English language in the Euronext Official Daily List (“*Officiële Prijscourant*”) of Euronext Amsterdam N.V. as soon as possible after the determination. (i) Determination or Calculation by Security Trustee

If the Reference Agent at any time for any reason does not determine the relevant Floating Rates of Interest or fails to calculate the relevant Interest Amounts in accordance with paragraph (g) above, the Security Trustee shall determine the relevant Floating Rates of Interest at such rate as, in its absolute discretion (having such regard as it shall think fit to the procedure described in paragraph (f) above), it shall deem fair and reasonable under the circumstances, or, as the case may be, the Security Trustee shall calculate the Interest Amounts in accordance with paragraph (g) above, and each such determination or calculation shall be final and binding on all parties.

(j) Reference Banks and Reference Agent

The Issuer will procure that, as long as any of the Notes remains outstanding, there will at all times be four Reference Banks and a Reference Agent. The Issuer has, subject to prior written consent of the Security Trustee, the right to terminate the appointment of the Reference Agent or of any Reference Bank by giving at least 90 days’ notice in writing to that effect. Notice of any such termination will be given to the holders of the relevant Class of Notes in accordance with Condition 13. If any person shall be unable or unwilling to continue to act as a Reference Bank or the Reference Agent (as the case may be) or if the appointment of any Reference Bank or the Reference Agent shall be terminated, the Issuer will, with the prior written consent of the Security Trustee, appoint a successor Reference Bank or Reference Agent (as the case may be) to act in its place, provided that neither the resignation nor removal of the Reference Agent shall take effect until a successor approved in writing by the Security Trustee has been appointed.

Each amount so deducted will be paid in the manner mentioned above against surrender of the relevant missing Coupon at any time before the expiry of five years following the due date for payment of such principal (whether or not such Coupons would have become unenforceable pursuant to Condition 8).
- (c) If the relevant Quarterly Payment Date is not a day on which banks are open for business in the place of presentation of the relevant Note or Coupon, the holder thereof shall not be entitled to payment until the next following such day, or to any interest or other payment in respect of such delay, provided that in the case of payment by transfer to an Euro account as referred to above, the Paying Agent shall not be obliged to credit such account until the day on which banks in the place of such account are open for business immediately following the day on which banks are open for business in the Netherlands. The name of the Paying Agent and of its offices are set out below.

(g) General

In the event of certain tax changes affecting any Class of Notes, including in the event that the Issuer is or will be obliged to make any withholding or deduction from payments in respect of the Notes (although the Issuer will not have any obligation to pay additional amounts in respect of any such withholding or deduction), the Issuer may (but is not obliged to) redeem all (but not some only) of the Notes at their Principal Amount Outstanding together with accrued interest thereon up to and including the date of redemption, subject to and in accordance with the Conditions. No Class of Notes may be redeemed under such circumstances unless the other Classes of Notes (or such of them as are then outstanding) are also redeemed in full at the same time.

7. Taxation

All payments of, or in respect of, principal of and interest on the Notes will be made without withholding of, or deduction for, or on account of any present or future taxes, duties, assessments or charges of whatsoever nature imposed or levied by or on behalf of the Netherlands, any authority therein or thereof having power to tax unless the withholding or deduction of such taxes, duties, assessments or charges are required by law. In that event, the Issuer will make the required withholding or deduction of such taxes, duties, assessments or charges for the account of the Noteholders, as the case may be, and shall not pay any additional amounts to such Noteholders. In particular, but without limitation, no additional amounts shall be payable in respect of any Note or Coupon presented for payment, where such withholding or deduction is imposed on a payment to an individual and is required to be made pursuant to any European Union Directive on the taxation of savings implementing the conclusions of the revised proposal of the ECOFIN Council dated 13 December 2001.

8. Prescription

Claims against the Issuer for payment in respect of the Notes and Coupons shall become prescribed unless made within five years from the date on which such payment first becomes due.

9. Subordination

(a) Interest

Interest on the Mezzanine Class B Notes, the Junior Class C Notes and the Subordinated Class D Notes shall be payable in accordance with the provisions of Conditions 4 and 6, subject to the terms of this Condition.

In the event that on any Annual Payment Date or, after the first Optional Redemption Date, any Quarterly Payment Date the Issuer has insufficient funds available to it to satisfy its obligations in respect of amounts of interest due on the Mezzanine Class B Notes on such Annual Payment Date or, after the first Optional Redemption Date, Quarterly Payment Date, the amount available (if any) shall be applied *pro rata* to the amount of the interest due on such Annual Payment Date or, after the first Optional Redemption Date, Quarterly Payment Date to the holders of the Mezzanine Class B Notes. In the event of a shortfall, the Issuer shall credit the Mezzanine Class B Interest Deficiency Ledger with an amount equal to the amount by which the aggregate amount of interest paid on the Mezzanine Class B Notes on any Annual Payment Date or, as the case may be, Quarterly Payment Date in accordance with this Condition falls short of the aggregate amount of interest payable on the Mezzanine Class B Notes on that date pursuant to Condition 4. Such shortfall shall not be treated as due on that date for the purposes of Condition 4, but shall accrue interest as long as it remains outstanding at the rate of interest applicable to the Mezzanine Class B Notes for such period, and a *pro rata* share of such shortfall and accrued interest thereon shall be aggregated with the amount of, and treated for the purpose of these Conditions as if it were interest due, subject to this Condition, on each Mezzanine Class B Note on the next succeeding Annual Payment Date or, as the case may be, Quarterly Payment Date.

In the event that on any Quarterly Calculation Date the Issuer has insufficient funds available to it to satisfy its obligations in respect of amounts of interest due on the Junior Class C Notes on the next Annual Payment Date or, after the first Optional Redemption Date, Quarterly Payment Date, the amount available (if any) shall be applied *pro rata* to the amount of the interest due on such Annual Payment Date or, after the first Optional Redemption Date, Quarterly Payment Date to the holders of the Junior Class C Notes. In the event of a shortfall, the Issuer shall credit the Junior Class C Interest Deficiency Ledger with an amount equal to the amount by which the aggregate amount of interest paid on the Junior Class C Notes on any Annual Payment Date or, as the case may be, Quarterly Payment Date in accordance with this Condition falls short of the aggregate amount of interest payable on the Junior Class C Notes on that date pursuant to Condition 4. Such shortfall shall not be treated as due on that date for the purposes of Condition 4, but shall accrue interest as long as it remains outstanding at the rate of interest applicable to the Junior Class C Notes for such period, and a *pro rata* share of such shortfall and accrued interest thereon shall be aggregated with the amount of, and treated for the purpose of these Conditions as if it were interest due, subject to this Condition, on each Junior Class C Note on the next succeeding Annual Payment Date or, as the case may be, Quarterly Payment Date.

In the event that on any Quarterly Calculation Date the Issuer has insufficient funds available to it to satisfy its obligations in respect of amounts of interest due on the Subordinated Class D Notes on the next Quarterly Payment Date, the amount available (if any) shall be applied *pro rata* to the amount of the interest due on such Quarterly Payment Date to the holders of the Subordinated Class D Notes. In the event of a shortfall, the Issuer shall credit the Subordinated Class D Interest Deficiency Ledger with an amount equal to the amount by which the aggregate amount of interest paid on the Subordinated Class D Notes on any Quarterly Payment Date in accordance with this Condition falls short of the aggregate amount of interest payable on the Subordinated Class D Notes on that date for the purposes of Condition 4, but shall accrue interest as long as it remains outstanding at the rate of interest applicable to the Subordinated Class D Notes for such period, and a *pro rata* share of such shortfall and accrued interest thereon shall be aggregated with the amount of, and treated for the purpose of these Conditions as if it were interest due, subject to this Condition, on each Subordinated Class D Note on the next succeeding Quarterly Payment Date.

(b) Principal

Until the date on which the Principal Amount Outstanding of the Senior Class A Notes is reduced to zero, the Mezzanine Class B Noteholders will not be entitled to any repayment of principal in respect of the Mezzanine Class B Notes. If, on any Quarterly Payment Date, there is a balance on the Principal

Deficiency Ledger, then notwithstanding any other provisions of these Conditions the principal amount payable on redemption of each Mezzanine Class B Note on such Quarterly Payment Date shall not exceed its Principal Amount Outstanding less the quotient of the balance on the Principal Deficiency Ledger on such Quarterly Payment Date minus the aggregate Principal Amount Outstanding on the Junior Class C Notes, divided by the number of Mezzanine Class B Notes. The Mezzanine Class B Noteholders shall have no further claim against the Issuer for the Principal Amount Outstanding on the Mezzanine Class B Notes after the earlier of (i) the Final Maturity Date and (ii) the date on which the Issuer no longer holds any Mortgage Receivables and there are no balances standing to the credit of the Transaction Accounts.

Until the date on which the Principal Amount Outstanding of the Senior Class A Notes is reduced to zero and the Principal Amount Outstanding of the Mezzanine Class B Notes is reduced to zero, the Junior Class C Noteholders will not be entitled to any repayment of principal in respect of the Junior Class C Notes. If, on any Quarterly Payment Date, there is a balance on the Principal Deficiency Ledger, then notwithstanding any other provisions of these Conditions the principal amount payable on redemption of each Junior Class C Note on such Quarterly Payment Date shall not exceed its Principal Amount Outstanding less the quotient of the balance on the Principal Deficiency Ledger on such Quarterly Payment Date divided by the number of the Junior Class C Notes. The Junior Class C Noteholders shall have no further claim against the Issuer for the Principal Amount Outstanding on the Junior Class C Notes after the earlier of (i) the Final Maturity Date or (ii) the date on which the Issuer no longer holds any Mortgage Receivables and there are no balances standing to the credit of the Transaction Accounts.

The Subordinated Class D Noteholders shall have no further claim against the Issuer for the Principal Amount Outstanding on the Subordinated Class D Notes after the earlier of (i) the Final Maturity Date or (ii) the date on which the Issuer no longer holds any Mortgage Receivables and there are no balances standing to the credit of the Transaction Accounts.

(c) *General*

In the event that the Security in respect of the Notes and the Coupons appertaining thereto has been fully enforced and the proceeds of such enforcement, after payment of all other claims ranking under the Trust Deed in priority to the relevant Class of Notes are insufficient to pay in full all principal and interest and other amounts whatsoever due in respect of such Class of Notes, the Noteholders of such Class shall have no further claim against the Issuer or the Security Trustee in respect of any such unpaid amounts.

10. Events of Default

The Security Trustee at its discretion may, and, if so directed by an Extraordinary Resolution of the Senior Class A Noteholders or if no Senior Class A Notes are outstanding, by an Extraordinary Resolution of the Mezzanine Class B Noteholders, or if no Senior Class A Notes and Mezzanine Class B Notes are outstanding, by an Extraordinary Resolution of the Junior Class C Noteholders or if no Senior Class A Notes, Mezzanine Class B Notes and Junior Class C Notes are outstanding by an Extraordinary Resolution of the Subordinated Class D Noteholders (subject, in each case, to being indemnified to its satisfaction) (in each case, the ‘**Relevant Class**’), shall (but in the case of the occurrence of any of the events mentioned in (b) below, only if the Security Trustee shall have certified in writing to the Issuer that such an event is, in its opinion, materially prejudicial to the Noteholders of the Relevant Class) give notice (an ‘**Enforcement Notice**’) to the Issuer that the Notes are, and each Note shall become, immediately due and payable at their or its Principal Amount Outstanding, together with accrued interest, if any of the following shall occur:

- (a) default is made for a period of fifteen (15) days or more in the payment on the due date of any amount due in respect of the Notes of the Relevant Class; or
- (b) the Issuer fails to perform any of its other obligations binding on it under the Notes of the Relevant Class, the Trust Deed, the Paying Agency Agreement or the Pledge Agreements and, except where such failure, in the reasonable opinion of the Security Trustee, is incapable of remedy, such default continues for a period of thirty days after written notice by the Security Trustee to the Issuer requiring the same to be remedied; or
- (c) if a conservatory attachment (“*conservatoir beslag*”) or an executory attachment (“*executoriaal beslag*”) on any major part of the Issuer’s assets is made and not discharged or released within a period of thirty (30) days; or
- (d) if any order shall be made by any competent court or other authority or a resolution passed for the dissolution or winding-up of the Issuer or for the appointment of a liquidator or receiver of the Issuer or of all or substantially all of its assets; or

- (e) the Issuer makes an assignment for the benefit of, or enters into any general assignment (“*akkoord*”) with, its creditors; or
- (f) the Issuer files a petition for a suspension of payments (“*surséance van betaling*”) or for bankruptcy (“*faillissement*”) or is declared bankrupt;

provided that, if Senior Class A Notes are outstanding, no Enforcement Notice may or shall be given by the Security Trustee to the Issuer in respect of the Mezzanine Class B Notes or the Junior Class C Notes or the Subordinated Class D Notes, irrespective of whether an Extraordinary Resolution is passed by the Mezzanine Class B Noteholders or the Junior Class C Noteholders or the Subordinated Class D Noteholders unless an Enforcement Notice in respect of the Senior Class A Notes has been given by the Security Trustee. In exercising its discretion as to whether or not to give an Enforcement Notice to the Issuer in respect of the Senior Class A Notes, the Security Trustee shall not be required to have regard to the interests of the Mezzanine Class B Noteholders or the Junior Class C Noteholders or the Subordinated Class D Noteholders.

11. Enforcement

- (a) At any time after the Notes of any Class become due and payable, the Security Trustee may, at its discretion and without further notice, take such steps and/or institute such proceedings as it may think fit to enforce the terms of the Deed of Surety, including the making of a demand for payment thereunder, the Trust Deed, the Pledge Agreements and the Notes, but it need not take any such proceedings unless (i) it shall have been directed by an Extraordinary Resolution of the Senior Class A Noteholders or, if all amounts due in respect of the Senior Class A Notes have been fully paid, the Mezzanine Class B Noteholders or, if all amounts due in respect of the Senior Class A Notes and the Mezzanine Class B Notes have been fully paid, the Junior Class C Noteholders or, if all amounts due in respect of the Senior Class A Notes, the Mezzanine Class B Notes and the Junior Class C Notes have been fully paid, the Subordinated Class D Noteholders and (ii) it shall have been indemnified to its satisfaction.
- (b) No Noteholder may proceed directly against the Issuer unless the Security Trustee, having become bound so to proceed, fails to do so within a reasonable time and such failure is continuing.
- (c) The Noteholders and the Security Trustee may not institute against, or join any person in instituting against, the Issuer any bankruptcy, winding-up, reorganisation, arrangement, insolvency or liquidation proceeding until the expiry of a period of at least one (1) year after the latest maturing Note is paid in full. The Noteholders accept and agree that, apart from any recourse claims in connection with the Deed of Surety, the only remedy of the Security Trustee against the Issuer after any of the Notes have become due and payable pursuant to Condition 10 above is to enforce the Security.

12. Indemnification of the Security Trustee

The Trust Deed contains provisions for the indemnification of the Security Trustee and for its relief from responsibility. The Security Trustee is entitled to enter into commercial transactions with the Issuer and/or any other party to the Relevant Documents without accounting for any profit resulting from such transaction.

13. Notices

With the exception of the publications of the Reference Agent in Condition 4 and of the Issuer in Condition 6, all notices to the Noteholders will only be valid if published in at least one daily newspaper of wide circulation in the Netherlands, in the *Financial Times* (London), or, if such newspaper shall cease to be published or timely publication therein shall not be practicable, in such newspaper as the Security Trustee shall approve having a general circulation in Europe and, as long as the Notes are listed on the Official Segment of the stock market of Euronext Amsterdam N.V., in the English language in the Euronext Official Daily List (“*Officiële Prijscourant*”) of Euronext Amsterdam N.V. Any such notice shall be deemed to have been given on the first date of such publication.

14. Meetings of Noteholders; Modification; Consents; Waiver

- (a) The Trust Deed contains provisions for convening meetings of the Senior Class A Noteholders, the Mezzanine Class B Noteholders, the Junior Class C Noteholders and the Subordinated Class D Noteholders to consider matters affecting the interests, including the sanctioning by Extraordinary Resolution, of such Noteholders of the relevant Class of a change of any of these Conditions or any

provisions of the Relevant Documents, provided that no change of certain terms by the Noteholders of any Class including the date of maturity of the Notes of the relevant Class, or a change which would have the effect of postponing any day for payment of interest in respect of such Notes, reducing or cancelling the amount of principal payable in respect of such Notes or altering the majority required to pass an Extraordinary Resolution or any alteration of the date or priority of redemption of such Notes (any such change in respect of any such class of Notes referred to below as a '**Basic Terms Change**') shall be effective, unless such Basic Terms Change is sanctioned by an Extraordinary Resolution of the Noteholders of the relevant Class of Notes as described below, except that, if the Security Trustee is of the opinion that such a Basic Terms Change is being proposed by the Issuer as a result of, or in order to avoid an Event of Default no such Extraordinary Resolution is required.

A meeting as referred to above may be convened by the Issuer or by Noteholders of any Class holding not less than 10 per cent. in Principal Amount Outstanding of the Notes of such Class. The quorum for any meeting convened to consider an Extraordinary Resolution for any Class of Notes will be two-thirds of the Principal Amount Outstanding of the Notes of the relevant Class, as the case may be, and at such a meeting an Extraordinary Resolution is adopted with not less than a two-thirds majority of the validly cast votes, except that the quorum required for an Extraordinary Resolution including the sanctioning of a Basic Terms Change shall be at least 75 per cent. of the amount of the Principal Amount Outstanding of the Notes of the relevant Class and the majority required shall be at least 75 per cent. of the validly cast votes at that Extraordinary Resolution. If at such meeting the aforesaid quorum is not represented, a second meeting of Noteholders will be held within one month, with due observance of the same formalities for convening the meeting which governed the convening of the first meeting; at such second meeting an Extraordinary Resolution is adopted with not less than a two-thirds majority of the validly cast votes, except that for an Extraordinary Resolution including a sanctioning of a Basic Terms Change the majority required shall be 75 per cent. of the validly cast votes, regardless of the Principal Amount Outstanding of the Notes of the relevant Class then represented, except if the Extraordinary Resolution relates to the removal and replacement of any or all of the managing directors of the Security Trustee, in which case at least 30 per cent. of the Notes of the relevant Class should be represented.

No Extraordinary Resolution to sanction a change which would have the effect of accelerating or increasing the maturity of the Senior Class A Notes, or any date for payment of interest thereon, increasing the amount of principal or the rate of interest payable in respect of the Senior Class A Notes shall take effect unless it shall have been sanctioned with respect to the Senior Class A Notes by an Extraordinary Resolution of the Mezzanine Class B Noteholders and/or the Junior Class C Noteholders and/or the Subordinated Class D Noteholders.

An Extraordinary Resolution of the Mezzanine Class B Noteholders and/or the Junior Class C Noteholders and/or the Subordinated Class D Noteholders shall only be effective when the Security Trustee is of the opinion that it will not be materially prejudicial to the interests of the Senior Class A Noteholders and/or, as the case may be, the Mezzanine Class B Noteholders and/or, as the case may be, the Junior Class C Noteholders or it is sanctioned by an Extraordinary Resolution of the Senior Class A Noteholders and/or, as the case may be, the Mezzanine Class B Noteholders and/or, as the case may be, the Junior Class C Noteholders. The Trust Deed imposes no such limitations on the powers of the Senior Class A Noteholders, the exercise of which will be binding on the Mezzanine Class B Noteholders, the Junior Class C Noteholders and the Subordinated Class D Noteholders, irrespective of the effect on their interests.

Any Extraordinary Resolution duly passed shall be binding on all Noteholders of the relevant Class (whether or not they were present at the meeting at which such resolution was passed).

- (b) The Security Trustee may agree, without the consent of the Noteholders, to (i) any modification of any of the provisions of the Relevant Documents which is of a formal, minor or technical nature or is made to correct a manifest error, and (ii) any other modification (except if prohibited in the Relevant Documents), and any waiver or authorisation of any breach or proposed breach, of any of the provisions of the Relevant Documents which is in the opinion of the Security Trustee not materially prejudicial to the interests of the Noteholders, provided that (i) the Security Trustee has notified Moody's and Fitch and (ii) Moody's and Fitch have confirmed that the then current ratings of the Notes will not be adversely affected by any such modification, authorisation or waiver. Any such modification, authorisation or waiver shall be binding on the Noteholders and, if the Security Trustee so requires, such modification shall be notified to the Noteholders in accordance with Condition 13 as soon as practicable thereafter.

- (c) In connection with the exercise of its functions (including but not limited to those referred to in this Condition) the Security Trustee shall have regard to the interests of the Senior Class A Noteholders and the Mezzanine Class B Noteholders and the Junior Class C Noteholders and the Subordinated Class D Noteholders each as a Class and shall not have regard to the consequences of such exercise for individual Noteholders and the Security Trustee shall not be entitled to require, nor shall any Noteholder be entitled to claim, from the Issuer any indemnification or payment in respect of any tax consequence of any such exercise upon individual Noteholders.

15. Replacements of Notes and Coupons

Should any Note or Coupon be lost, stolen, mutilated, defaced or destroyed, it may be replaced at the office of the Paying Agent upon payment by the claimant of the expenses incurred in connection therewith and on such terms as to evidence and indemnity as the Issuer may reasonably require. Mutilated or defaced Notes or Coupons must be surrendered, in the case of Notes together with all unmatured Coupons appertaining thereto, in the case of Coupons together with the Note and all unmatured Coupons to which they appertain (“*mantel en blad*”), before replacements will be issued.

16. Governing Law

The Notes and Coupons are governed by, and will be construed in accordance with, the laws of the Netherlands. In relation to any legal action or proceedings arising out of or in connection with the Notes and Coupons the Issuer irrevocably submits to the jurisdiction of the District Court in Amsterdam, the Netherlands. This submission is made for the exclusive benefit of the holders of the Notes and the Security Trustee and shall not affect their right to take such action or bring such proceedings in any other courts of competent jurisdiction.

17. Additional obligations

For as long as the Notes are listed on the Official Segment of the stock market of Euronext Amsterdam N.V., the Issuer will comply with the provisions set forth in Article 2.1.20 Section a-g of Schedule B of the Listing and Issuing Rules (“*Fondsenreglement*”) of Euronext Amsterdam N.V. or any amended form of the said provisions as in force at the date of the issue of the Notes.

THE GLOBAL NOTES

Each Class of Notes shall be initially represented by (i) in the case of the Senior Class A1 Notes a Temporary Global Note in bearer form, without coupons, in the principal amount of euro 530,000,000, (ii) in the case of the Senior Class A2 Notes a Temporary Global Note in bearer form, without coupons, in the principal amount of euro 325,000,000, (iii) in the case of the Mezzanine Class B Notes a Temporary Global Note in bearer form, without coupons, in the principal amount of euro 32,500,000, (iii) in the case of the Junior Class C Notes a Temporary Global Note in bearer form, without coupons, in the principal amount of euro 12,500,000 and (iv) in the case of the Subordinated Class D Notes a Temporary Global Note in bearer form, without coupons, in the principal amount of euro 4,500,000. Each Temporary Global Note will be deposited with Société Générale Bank and Trust, Luxembourg, as common depository on behalf of Euroclear Bank S.A./N.V., as operator of Euroclear and for Clearstream, Luxembourg on or about 12 May 2003. Upon deposit of each such Temporary Global Note, Euroclear and Clearstream, Luxembourg will credit each purchaser of Notes represented by such Temporary Global Note with the principal amount of the relevant Class of Notes equal to the principal amount thereof for which it has purchased and paid. Interests in each Temporary Global Note will be exchangeable (provided certification of non-U.S. beneficial ownership by the Noteholders has been received) not earlier than 40 days after the issue date of the Notes (the '**Exchange Date**') for interests in a permanent global note (each a '**Permanent Global Note**'), in bearer form, without coupons, in the principal amount of the Notes of the relevant Class (the expression '**Global Notes**' meaning the Temporary Global Notes of each Class and the Permanent Global Notes of each Class and the expression '**Global Note**' means any of them, as the context may require). On the exchange of a Temporary Global Note for a Permanent Global Note of the relevant Class, the Permanent Global Note will remain deposited with the common depository.

The Global Notes will be transferable by delivery. Each Permanent Global Note will be exchangeable for definitive notes (the '**Definitive Notes**') only in the circumstances described below. Each of the persons shown in the records of Euroclear or Clearstream, Luxembourg as the holder of a Note will be entitled to receive any payment made in respect of that Note in accordance with the respective rules and procedures of Euroclear or, as the case may be, Clearstream, Luxembourg. Such persons shall have no claim directly against the Issuer in respect of payments due on the Notes, which must be made by the holder of a Global Note, for so long as such Global Note is outstanding. Each person must give a certificate as to non-U.S. beneficial ownership as of the date on which the Issuer is obliged to exchange a Temporary Global Note for a Permanent Global Note, which date shall be no earlier than the Exchange Date, in order to obtain any payment due on the Notes.

For so long as any Notes are represented by a Global Note, such Notes will be transferable in accordance with the rules and procedures for the time being of Euroclear or Clearstream, Luxembourg, as appropriate.

For so long as all of the Notes are represented by the Global Notes and such Global Notes are held on behalf of Euroclear and/or Clearstream, Luxembourg, notices to Noteholders may be given by delivery of the relevant notice to Euroclear and/or Clearstream, Luxembourg (as the case may be) for communication to the relevant accountholders rather than by publication as required by Condition 13 (provided that, in the case any publication required by a stock exchange, that stock exchange agrees or, as the case may be, any other publication requirements of such stock exchange will be met). Any such notice shall be deemed to have been given to the Noteholders on the seventh day after the day on which such notice is delivered to Euroclear and/or Clearstream, Luxembourg (as the case may be) as aforesaid.

For so long as a Class of the Notes are represented by a Global Note, each person who is for the time being shown in the records of Euroclear or of Clearstream, Luxembourg as the holder of a particular principal amount of that Class of Notes will be treated by the Issuer and the Security Trustee as a holder of such principal amount of that Class of Notes and the expression '**Noteholder**' shall be construed accordingly, but without prejudice to the entitlement of the bearer of relevant Global Note to be paid principal thereon and interest with respect thereto in accordance with and subject to its terms. Any statement in writing issued by Euroclear or Clearstream, Luxembourg as to the persons shown in its records as being entitled to such Notes and the respective principal amount of such Notes held by them shall be conclusive for all purposes.

If after the Exchange Date (i) the Notes become immediately due and payable by reason of accelerated maturity following an Event of Default, or (ii) either Euroclear or Clearstream, Luxembourg is closed for business for a continuous period of 14 days (other than by reason of holiday, statutory or otherwise) or announces an intention permanently to cease business and no alternative clearance system satisfactory to the Security Trustee is available, or (iii) as a result of any amendment to, or change in the laws or regulations of the Netherlands (or of any political sub-division thereof) or of any authority therein or thereof having power to tax, or in the interpretation or administration of such laws or regulations, which

becomes effective on or after 12 May 2003, the Issuer or Paying Agent is or will be required to make any deduction or withholding on account of tax from any payment in respect of the Notes which would not be required were the Notes in definitive form, then the Issuer will at its sole cost and expense, issue:

- (i) Senior Class A1 Notes in definitive form in exchange for the whole outstanding interest in the Permanent Global Note in respect of the Senior Class A1 Notes;
- (ii) Senior Class A2 Notes in definitive form in exchange for the whole outstanding interest in the Permanent Global Note in respect of the Senior Class A2 Notes;
- (iii) Mezzanine Class B Notes in definitive form in exchange for the whole outstanding interest in the Permanent Global Note in respect of the Mezzanine Class B Notes;
- (iv) Junior Class C Notes in definitive form in exchange for the whole outstanding interest in the Permanent Global Note in respect of the Junior Class C Notes; and
- (v) Subordinated Class D Notes in definitive form in exchange for the whole outstanding interest in the Permanent Global Note in respect of the Subordinated Class D Notes;

in each case within 30 days of the occurrence of the relevant event, subject in each case to certification as to non-U.S. beneficial ownership.

Terms used in this paragraph have the meanings given to them by the US Internal Revenue Code and regulations thereunder.

France

Each of the Managers has represented and agreed that it has not offered or sold and will not offer or sell, directly or indirectly, any Notes to the public in the Republic of France and that it has not distributed or caused to be distributed and has undertaken that it will not distribute or cause to be distributed this Offering Circular or any amendment or supplement to it or any other offering material relating to the Notes to the public in the Republic of France. The Issuer has undertaken not to offer, directly or indirectly, any Notes to the public in the Republic of France.

Germany

Each of the Managers has acknowledged that the Notes are issued under the “Euro 40,000 Exemption” pursuant to Section 2 No. 4 of the Securities Selling Prospectus Act of the Federal Republic of Germany (“*Wertpapier-Verkaufsprospektgesetz*”) of December 13, 1990, as amended (the ‘**Securities Selling Prospectus Act**’) and that no Securities Sales Prospectus (“*Verkaufsprospekt*”) has been published; in particular, the Notes may not be offered in Germany by way of public promotions. Each of the Managers represents and agrees that it has offered and sold and will offer and sell the Notes only (i) in denominations of at least Euro 40,000, or (ii) for an aggregate purchase price per purchaser of at least Euro 40,000 (or foreign currency equivalent), or (iii) if the selling price for all Notes offered does not exceed Euro 40,000 or such other amount as may be stipulated from time to time by applicable German law. In particular, each Manager undertakes not to engage in public offerings in the Federal Republic of Germany with respect to

the Notes otherwise than in accordance with the Securities Selling Prospectus Act and any other act replacing or supplementing such Act, and all other applicable laws and regulations.

Notice to investors

The Notes have not been and will not be registered under the Securities Act or any other applicable securities laws, and may not be offered or sold in the United States except pursuant to an effective registration statement or in accordance with an applicable exemption from, or in a transaction not subject to, the registration requirements of the Securities Act and such other laws. Accordingly, the Notes (and any interests therein) are being offered and sold outside the United States to non-US persons in compliance with Regulation S under the Securities Act.

The Notes will bear a legend to the following effect:

“THIS NOTE HAS NOT BEEN AND WILL NOT BE REGISTERED UNDER THE UNITED STATES SECURITIES ACT OF 1933, AS AMENDED (THE ‘SECURITIES ACT’), OR THE SECURITIES LAWS OF ANY STATE OF THE UNITED STATES, AND PRIOR TO THE DATE THAT IS 40 DAYS AFTER THE LATER OF THE COMMENCEMENT OF THE OFFERING OF THE NOTES AND THE ISSUE DATE MAY NOT BE OFFERED, SOLD, PLEDGED OR OTHERWISE TRANSFERRED IN THE UNITED STATES OR TO A US PERSON (AS DEFINED IN REGULATION S UNDER THE SECURITIES ACT) EXCEPT PURSUANT TO AN EXEMPTION FROM THE REGISTRATION REQUIREMENTS OF THE SECURITIES ACT AND IN ACCORDANCE WITH ANY APPLICABLE SECURITIES LAWS OF ANY STATE OF THE UNITED STATES.”

Because of the foregoing restrictions, purchasers of Notes are advised to consult legal counsel prior to making any offer, resale, pledge or transfer of such securities offered and sold.

The distribution of this Offering Circular and the offering of the Notes in certain jurisdictions may be restricted by law; persons into whose possession this Offering Circular comes are required by the Issuer and the Managers to inform themselves about and to observe any such restrictions. This Offering Circular does not constitute an offer, or an invitation to subscribe for or purchase, any Notes.
